PROJECT DESCRIPTION - REQUESTED SERVICES AND DISTRICT TOPOGRAPHY

The Stockton Unified School District has an on-going strategic plan which includes connectivity, and support and is soliciting proposals for private (non-shared) Wide Area Network (WAN) services, specifically a dark fiber-connected metro-area backbone network. Stockton Unified School District's existing technology infrastructure consists of a local area network installed at each campus with a wide area network connecting the campuses together. A list of these campuses, street addresses and required Committed Information Rates ("CIR") appear in "Appendix A" of this RFP.

Wide Area Network

The District is seeking a carrier/ provider to install and actively manage a dedicated fiber WAN connecting between all of our school sites listed in Appendix A. Connection must provide an initial managed 40 Gb committed information rate (CIR), 100 Gb capable connection. The carrier/provider shall amortize the cost of construction into the monthly rate. A list of these sites, street addresses and required Committed Information Rates ("CIR") appear in "Appendix A" of this RFP.

WAN REQUIREMENTS

The services requested will include upgrades to Stockton Unified School District's existing WAN CIR's. Service must be capable of delivering a minimum (CIR) of 40 Gigabits/second ("Gbps") using Ethernet protocol over fiber to each site and 40 Gbps/second Ethernet to the School sites.

- a. The District Data Center located in PURCHASING OFFICE, 1932 El Pinal Dr, Stockton, CA 95205 is to serve as the termination point for the network. At present, 61 SUSD sites are connected via 10Gbps service connections. With this RFP, SUSD intends to increase current aggregate bandwidth to sites (See "Appendix A" for details). The assignment of schools to particular network segments for bundling is at the discretion of the service provider.
- b. All Sixty-one (61) SUSD school sites and facilities shall have a minimum data connection CIR of 40 Gbps full-duplex.
- c. SUSD desires the ability to vary bandwidth in the future to meet demand. Proposals may include rates for higher bandwidth connections and should describe the vendor's ability to scale the proposed solution to meet greater bandwidth demands.
- d. The Contractor/Carrier shall deliver the requested CIR at full bandwidth at each school directly to the District Data Center on a full availability basis, 24/7 with a minimum of 99.0% bandwidth uptime.
- e. The vendor shall specify that this network is a managed solution and the vendor will provide all necessary hardware and software accordingly. As part of the proposal, the vendor will make known the space requirements for installed equipment at sites. Network outage resolution should be coordinated with SUSD technical staff.
- f. The vendor must provide easy access to help desk and repair services. A clear, documented procedure must be defined for severe problem escalation with appropriate response times delineated in proposal. The vendor will provide critical alerts to SUSD Technical Contacts via email, and notification of service outages via telephone to SUSD Technical Contacts along with status and estimated time of restoration (ETR). This alert service will be maintained for the duration of the contract.

- g. The circuits shall be capable of carrying multiple protocols such as IP Data, Voice over IP (VoIP) telephony, streaming digital video, teleconferencing, etc. Jitter and latency shall be within industry accepted limits for typical services of these types. The WAN must support the transmission of QoS (“Quality of Service”) tags implemented by SUSD between endpoints.
- h. All equipment including but not limited to cabling, connectors, etc. necessary to provide this connectivity shall be provided by the vendor.
- i. The network must be fully operational by **July 1, 2024** . The term “fully operational” is defined as error free network connectivity at the specified CIRs, delivered to all sites without failures for at least 72 hours. Vendor must provide certification reports of CIR, jitter, latency, and interface error metrics for each endpoint.
- j. For billing purposes, the cut-over date and contract term for any new carrier begins on July 1, 2024. Stockton Unified School District requires a transition plan to be provided with any proposal response. The plan is to include the resources to be dedicated to the transition, all costs associated with the transition, a timeline of actions with a completion target date for the supplier and for the Stockton Unified School District transition team. The transition plan is to outline the expectations the supplier team would have of Stockton Unified School District and the information or task Stockton Unified School District to provide the supplier and the date any information or task would be required.

EVALUATION AND SELECTION CRITERIA

Selection – In accordance with the Public Contract Code of the State of California Section 20118.1, the governing board of any school district may contract with an acceptable party who is one of the three lowest responsible proponents for the procurement or maintenance, or both, of electrical data processing systems and supporting software in any manner the board deems appropriate. The District will determine which proposal, taken as a whole, is in the sole opinion of the District deemed to serve best the current needs and future expansion of the District's requirements. Accordingly, it shall be understood by all proponents that price is not necessarily the sole criterion to be used in the evaluation and selection process, and that if the lowest cost alternative is not of sufficient quality or if there is not sufficient assurance or evidence of sufficient quality to meet stated requirements, the District reserves the right to select another alternative of the same or a different proponents. Proponents' past performance, equipment, and ability to perform and complete the intended contract and to render the maintenance and other support services described in this RFP throughout the life of the contract will be important elements, along with the proposed cost (Submittal II), in providing the basis for evaluation and selection. In all these matters, the decision of the District regarding the final selection of the successful proponents and the proposed solution, service, equipment and in awarding of a contract shall be final.

Quality of The Response – The Quality of the response(s) submitted will be evaluated on the following:

- A. Completeness
- B. Thoroughness
- C. Accuracy
- D. Compliance with Proposal Instructions
- E. The organization and conciseness of descriptive text material
- F. Ability to Participate in the "E-rate" program

Compliance – Responses that do not comply with instructions and forms may be eliminated from further selection.

BASIS OF SELECTION

No commitment will be made to select a proponent's system(s) solely on the basis of cost. Selection will be made on a combination of factors including technical bid submittal, Service, Maintenance & Training. Proponent experience and references, Implementation Plan, Price and other customer satisfaction, customer references, and conformance to the specifications contained in this Request for Proposal.

Therefore, the District may consider factors other than price alone in the consideration of bids; price for E-rate eligible goods and services will be the primary factor considered.

The process that will be used by the district in selecting the firm to perform services outlined in the Request for Proposal will be as follows:

- A. **Screening & Selection** – The screening and selection will be performed by District Staff. All proposals submitted by firms will be reviewed. The committee will then formulate a recommendation to the Board of Education. The criterion to be used by the committee in the evaluation process is as follows:

Responses will be evaluated according to the following weighting:

No.	Factor	Total Points Available
1	Cost of eligible products and/or services	30
2	Cost of ineligible products and/or services	10
3	Design and Technical Bid Submittal	15
4	Implementation Cost	20
5	Vendor References	5
6	Experience with district	5
7	Ability to deliver service at start of funding year	5
8	Ability to deliver service throughout district geographic region	5
9	Financial stability	5

E-RATE SUPPLEMENTAL TERMS AND CONDITIONS

Signed copy to be returned with bid response.

The Telecommunications Act of 1996 established a fund by which Schools and Libraries across the Country could access discounts on eligible telecommunications products and services. The program is commonly known as the E-rate Program. The eligibility for discounts on internet access, telecommunications products and services, internal connection products, services and maintenance is determined by the Federal Communications Commission (FCC). Funding is made available upon application approval by the Schools and Libraries Division (SLD) of the Universal Service Administrative Company (USAC), which was established by the Act. The amount of discount is based on the numbers of students receiving free and reduced price meals.

1) E-RATE CONTINGENCY

The project herein is contingent upon the approval of funding from the Universal Service Fund's Schools and Libraries Program, otherwise known as E-rate. Even after award of contract(s) and/or E-rate funding approval is obtained, the District may or may not proceed with the project, in whole or in part. Execution of the project, in whole or in part, is solely at the discretion of the District.

2) SERVICE PROVIDER REQUIREMENTS

The District expects Service Providers to make themselves thoroughly familiar with any rules or regulations regarding the E-rate program.

- a. Service Providers are required to be in full compliance with all current requirements and future requirements issued by the SLD throughout the contractual period of any contract entered into as a result of this RFP.
- b. Service Providers are responsible for providing a valid SPIN (Service Provider Identification Number). More information about obtaining a SPIN may be found at this website: <https://www.usac.org/e-rate/service-providers/step-1-obtain-a-spin/>
- c. Service Providers are responsible for providing a valid Federal Communications Commission (FCC) Registration Number (FRN) at the time the bid is submitted. More information about obtaining an FRN may be found at this website: <https://fjallfoss.fcc.gov/coresWeb/publicHome.do>
- d. Service Providers are responsible for providing evidence of FCC Green Light Status at the time the bid is submitted. Any potential bidder found to be in Red Light Status must provide an explanation of the steps it is undertaking to be removed to Red Light Status and the expected timeframe for resolution. A Service Provider's sustained Red Light Status may be grounds for contract termination as it could prohibit the Service Provider from providing E-rate discounts in a timely manner which would cause harm to the Applicant. More information about FCC Red and Green Light Status may be found at this website: http://www.fcc.gov/debt_collection/welcome.html
- e. Products and services must be delivered before billing can commence. At no time may the Service Provider invoice USAC before July 1, 2024.
- f. Prices must be held firm for the duration of the associated E-rate Funding Year(s) or until all work associated with the project is complete (including any contract and USAC approved extensions).

- g. Goods and services provided shall be clearly designated as “E-rate Eligible”. Non-eligible goods and services shall be clearly called out as 100% non-eligible or shall be “cost allocated” to show the percentage of eligible costs per SLD guidelines.
- h. **Within one (1) week of award, the awarded Service Provider must provide the District a bill of materials using a completed USAC “Item 21 Template”. Subsequent schedules of values and invoices for each site must match Item 21 Attachment or subsequent service substitutions. A summary sheet must also be provided to provide the cumulative amount for all sites.**
- i. In the event of questions during an E-rate pre-commitment review, post-commitment review and/or audit inquiry, the awarded Service Provider is expected to reply within 3 days to questions associated with its proposal.
- j. The awarded Service Provider is required to send copies of all forms and invoices to the District prior to invoicing USAC for pre-approval. Failure to comply with this requirement may result in the District placing the vendor on an “Invoice Check” with the USAC <https://www.usac.org/e-rate/applicant-process/invoicing/invoice-check/>
- k. Services providers must comply with the FCC rules for Lowest Corresponding Price ("LCP"). Further details on LCP may be obtained at USAC's website: <https://www.usac.org/e-rate/service-providers/step-2-responding-to-bids/lowest-corresponding-price/>

3) SERVICE PROVIDER ACKNOWLEDGEMENTS

- a. The Service Provider acknowledges that no change in the products and/or services specified in this document will be allowed without prior written approval from the district and a USAC service substitution approval with the exception of a Global Service Substitutions.
- b. The Service Provider acknowledges that all pricing and technology infrastructure information in its bid shall be considered as public and non-confidential pursuant to §54.504 (2)(i)(ii).
- c. The Service Provider acknowledges that its offer is considered to be the lowest corresponding price pursuant to § 54.511(b). Further details on LCP may be obtained at USAC's website: <https://www.usac.org/e-rate/service-providers/step-2-responding-to-bids/lowest-corresponding-price/>. Should it not be the lowest corresponding price, the service provider must disclose

the conditions leading to the applicant being charged in excess of lowest corresponding price.

- d. BIDDERS are required to comply with the FCC's Lowest Corresponding Price ("LCP") Requirement for all equipment and Services. BIDDER acknowledges that BIDDER is solely responsible to comply with LCP requirements. To the extent that USAC finds an LCP violation and reduces the E-rate Funding, BIDDER agrees that it will not hold the DISTRICT liable for any shortfall in E-rate funding and will be responsible for any ensuing appeals, COMADS and/or RIDFS.
- e. The Service Provider attests that its offer does not violate the FCC's Supply Chain certifications included in the FCC Form 473. Supply Chain requirements and certifications can be viewed at USAC's Website:
<https://www.usac.org/about/reports-orders/supply-chain/>.
- f. This offer is in full compliance with USAC's Free Services Advisory <https://www.usac.org/e-rate/applicant-process/competitive-bidding/free-services-advisory/>. There are no free services offered that would predicate an artificial discount and preclude the applicant from paying its proportionate non-discounted share of costs. The service provider agrees to provide substantiating documentation to support this assertion should the applicant, USAC, or the FCC request it.

4) STARTING SERVICES/ADVANCE INSTALLATION – Category 1 Services

The annual E-rate Funding Year begins on July 1 and expires on June 30 of each calendar year. Regardless of the contract "effective date", E-rate eligible goods and/or services requested in this RFP shall be delivered no earlier than the start of the 2024 funding year (July 1, 2024). If Category 1 services (Telecommunication Services and Internet access) will begin on or shortly after July 1 of a funding year, the service provider, in some cases, may need to undertake some construction and installation work prior to the beginning of that funding year. Within the limitations indicated below, the infrastructure costs of a service provider can be deemed to be delivered at the same time that the associated Category 1 services begin. That is, if services begin on July 1, then the delivery of service provider infrastructure necessary for those services can be considered as also delivered on July 1. However, NO INVOICING can take place prior to July 1 of the associated Funding Year.

EARLY FUNDING CONDITIONS

Category 1

There are four conditions that must be met in order for USAC to provide support in a funding year for Category 1 infrastructure costs incurred prior to that funding year.

- *Initiation of installation cannot take place before selection of the service provider pursuant to a posted Form 470 and in any event no earlier than six months prior to July 1 of the funding year.*
- *The Category 1 service must depend on the installation of the infrastructure.*
- *The underlying Category 1 service cannot have a service start date prior to July 1 of the funding year.*
- *No invoices can be submitted to USAC for reimbursement prior to July 1 of the funding year.*

For more information, please refer to the FCC Order involving the Nassau County Board of Cooperative Educational Services (DA 02-3365 , released December 6, 2002). This FCC decision only applies to Priority 1 services (telecommunications services and Internet access).

The complete text can be found at the following URL:

<https://www.usac.org/e-rate/applicant-process/starting-services/advance-installation/>

Category 2

There is one condition that allows USAC to provide support in a funding year for Category 2 installation costs incurred prior to that funding year.

- *We also amend our rules for category two non-recurring services to permit applicants to seek support for category two eligible services purchased on or after April 1, three months prior to the start of funding year on July 1. This will provide schools with the flexibility to purchase equipment in preparation for the summer recess and provide the maximum amount of time during the summer to install these critical networks.*

For more information, please refer to the FCC Report and Order and Further Notice of Proposed Rulemaking ([FCC 14-99](#) , released July 23, 2014). This FCC decision only applies to Category 2 services (Internal Connections).

However, NO INVOICING can take place prior to July 1 of the funding year.

5) INVOICING

- a. The Service Provider agrees to bill and receive a portion of the payment for the provisions of goods and services described herein directly from USAC via the Form 474 Service Provider Invoice (SPI). The District will only be responsible for paying its non-discounted share of costs and does not intend to use the BEAR process (Form 472). The maximum percentage the District will be liable for is the pre-discount amount minus the funded amount as shown on the FCC Form 471 Block 5 and any identified ineligible costs. Upon the successful receipt or posting of a Funding Commitment Decision Letter from the SLD and submission, certification and USAC approval of Form 486, the District shall pay only the discounted amount beginning with the billing cycle immediately following said approval. Alternatively, should the District decide that it is in the best interest of the District to file a Form 472, the District will inform the Service Provider of its intent.
- b. All Service Provider invoicing to USAC must be completed within 120 days from the last day of service. Should the Service Provider fail to invoice USAC in a timely manner, the District will only be responsible for paying its non-discounted share.

6) FCC/SLD AUDITABILITY

The E-rate program requires that all records be retained for at least ten (10) years from the last date of service provided on a particular funding request. Respondent hereby agrees to retain all books, records, and other documents relative to any Agreement resulting from this RFP for ten (10) years after final payment. The District, its authorized agents, and/or auditors reserves the right to perform or have performed an audit of the records of the Respondent and therefore shall have full access to and the right to examine any of said materials within a reasonable period of time during said period.

7) PROCUREMENT OF ADDITIONAL GOODS AND/OR SERVICES/COTERMINOUS EXPIRATION

During the term of any Agreement resulting from this RFP, the District may elect to procure additional or like goods and/or services offered by the Respondent. Such services shall be negotiated and obtained via an official amendment to this Agreement and approval by the District's Governing Board. All terms, conditions, warranties, obligations, maintenance and support of said goods or services shall have a coterminous expiration date with the original date of this Agreement. The District shall not enter into a separate Agreement for said goods or services. Respondents must state in

their proposal that they acknowledge, accept and are in agreement with coterminous expiration conditions.

I, the undersigned, as an authorized agent of _____
(Service Provider Name), hereby certify that I have read the E-rate Supplemental Terms and Conditions, am fully compliant and intend to cooperate with the E-rate process as outlined above.
