## Warehouse Stores Requisitions

Warehouse Stores Requisitions are for internal use only.

Go to Finance > Requisitions > Store Requisitions. Click on "New".

### Warehouse Stores Requisition Tabs

**Requisition Tab** – You can edit the Requisitioner and Request Date if needed. Required fields are Order Location and Comment. Use the comment to describe the purchase justification (what the purchase is for):

**Approvals** – This lists all of the approvals for the requisition where you can see who still needs to approve.

Attachments – Attach backup for the requisition, if applicable.

**Notes** – This is additional information that you want kept with the record. All users can see this information. It can also be displayed in reports.

**History** – This contains historical records of all information that has changed and by whom. All users can see this information. It can also be displayed in reports.

### Warehouse Stores Requisitions Tasks

**Submit** – To submit a requisition, you must enter all required fields, at least one account and one line item. All amounts must be distributed. When you select this task, the requisition is submitted, an encumbrance JE is posted, a history record is written and approval records (or not, as defined) are written to the Approvals tab.

**Return to Open** – If there is a change that must be made, this option returns the requisition to the Open status, reverses the encumbrance in the requisition and writes a history record. The requisition can be resubmitted once changes are made. This option is not available when a requisition is in the Cancelled or Complete status.

**Cancel** – Cancelling a requisition changes the status to Cancelled, reverses the encumbrance and creates a history record. This option is not available when a requisition is in the Complete status.
