SPECIAL EDUCATION

TO THE PARENT/GUARDIAN OF:

Student's Date of Birth _____ School of Attendance _____

Our legal office researched the possibility of dropping a student off at home without Parent supervision being available. They determined that if it is **reasonable** to drop a student off, it would be all right to do so. When this is done, we need to get written permission from the Parent/Guardian which specifically indicates what they want done, under what conditions and that they do not hold Stockton Unified School District and First Student Inc. responsible after the student leaves the bus. **Please note that we will not approve waivers for students under the age of 13 unless certain conditions are met.**

Student may only be released to _____

Please drop off my child (name) _____
at **HOME** _____ without adult supervision. I will be held responsible for the safety of my child. Stockton Unified School District and First Student Inc. are not responsible after my child leaves the bus.
