All Personnel

First Aid Training

The Governing Board recognizes that life-threatening accidents often occur unexpectedly and in unusual circumstances. It is most likely that qualified medical personnel will not be present when emergency actions are needed. The board encourages all employees to become proficient in first aid and cardiopulmonary resuscitation (CPR).

The district shall require personnel employed in certain specified positions to have and maintain valid certifications in first aid, CPR and other life-saving techniques. The superintendent shall specify these positions and develop rules concerning this policy.
