### **Before/After School Programs**

The Governing Board desires to provide after-school enrichment programs that support the regular education program and provide safe, constructive alternatives for students. In order to increase academic achievement of participating students, the content of such programs shall be aligned with the district's vision and goals for student learning, its curriculum, and district and state academic standards and shall be integrated with other learning support activities.

The establishment of any program shall be approved by the Board and the principal of each participating school. (Education Code 8421, 8482.3)

The program shall include academic and enrichment elements in accordance with law and administrative regulation. In addition, the program may include support services that reinforce the educational component and promote student health and well-being, including, but not limited to, drug and violence prevention programs, counseling/guidance services, character education, and programs that promote parent/guardian involvement and family literacy.

No fee shall be charged for participation in the After School Enrichment and Safety (ASES) program.

The Board and the Superintendent or designee shall monitor student participation rates and shall identify measures that shall be used to determine program effectiveness, such as outcome-based data on academic performance, attendance, and positive behavioral changes.
