Integrated Academic and Vocational Instruction

In order to maximize the learning and application of skills that will allow students to succeed in life, the governing board believes that the instruction of academic and vocational subjects should be combined and fully integrated during all their years of schooling. The board is confident that achievement will rise when students are routinely called upon to apply their classroom learning to real life and workplace situations.

The board recognizes that integrated academic/vocational instruction will require new forms of community involvement and a new level of collaboration among schools and staff members. Representatives of all disciplines and grade levels will need to collaborate in developing a curriculum that offers school-based learning experiences in well-articulated sequences. Career awareness, exploration and guidance should be an integral part of this curriculum.
