I also understand the District Internet System and Technology Services are not merely a Stockton Unified School District Internet System where only students and teachers have access. Rather, the District Internet System and Technology Services are also available to all educational organizations, their employees, and any organization that contributes, or may contribute, to the Internet Service Provider. Further, there is an ability for guest users both minors and adults, to have access to the Internet System and Technology and currently there is no definition of who may be a guest.

I have read the Stockton Unified School District Acceptable Use Policy and the acceptable use policy of the Internet service provider. I agree to follow the rules contained in these policies. I understand that if I violate the rules my account can be terminated and I may face other disciplinary measures.
