

Instruction

Work Experience Education

The governing board believes that work experience education programs can provide students with valuable instruction in the skills, attitudes and understandings they need in order to be successfully employed.

In order that they may strike a proper balance between work experience and academic instruction, students may earn up to 40 semester credits for the satisfactory completion of a work experience program. No more than ten credits may be earned in any one semester.

The superintendent or designee shall ensure that students in work experience programs receive at least the equivalent of one instructional period a week of related classroom instruction or counseling. Such instruction shall occur in sessions scheduled intermittently throughout the semester.

The superintendent or designee shall ensure that the work experience education program meets all of the requirements of law governing these programs.

The District shall not provide work experience training or issue work permits for Charter Schools not chartered by the District, or students enrolled in Charter Schools not chartered by the District.
