

Hotspot and Laptop Device Distribution: **Student and Parent/Guardian Notification**

Congratulations! Your student has been selected to receive a **FREE** Laptop and/or a **FREE** Hotspot device as part of Stockton Unified School District's partnership with the 1 Million Project and part of the District's investment in additional technology through the Local Control Funding Formula (LCFF). This Project is focused on increasing internet and home computer access to students at home to help close the digital divide. These resources are intended to be used for academic purposes and have filtered access to the Internet to ensure that students are not accessing inappropriate content. Hotspots come with a free data plan and no strings attached, which means:

- Hotspot functionality
- 10GB LTE data/month
- Unlimited 2G data
- Free plan while enrolled in High school

Best Practice Recommendations

- Save the box for your hotspot – the setup directions are included inside.
- Do not use the hotspot or laptop device while at school or in locations where free internet or school laptops are available. You want to conserve your data and protect your device when possible.
- Keep your hotspot and/or laptop at home or in a backpack, and turn it off while not in use.
- Label your Hotspot or Laptop with a sticker with your name and contact info, so if you lose it, you can get it back.
- Limit connecting other devices at home to your hotspot. More devices = less data for school work.

Find out more info at: <https://www.stocktonusd.net/Page/11896>

SETUP FOR HOTSPOTS:

NOTE: Directions are provided inside the box

- Before utilizing your new Hotspot, please assemble the device completely (if applicable) and charge it for a minimum of 2-3 hours.
- When you start the hotspot for the first time, it may take up to 5 minutes for the device to complete its initial activation.
- Your hotspot wireless name (SSID) and password will either be displayed within the onscreen display or it can be found on the inside of your hotspot battery cover.
- Both the network name and password can be changed by the student to something personal and easier to remember if they would like to do so.

Hotspot Service Support Assistance

If you are experiencing connectivity issues with the HOTSPOT, you can call the Sprint Helpline. You may be asked to provide information that on the original hotspot box label like PIN code and the answer to the password. Sprint's team is available every day, from 5AM to 8PM at: **844-309-1680**.

Device Hardware & Tutorials

Students are randomly assigned 1 of the 2 MiFi devices shown below. Device directions are provided within the box. Students are encouraged to keep their box as the label provided on the outside of it is needed when contacting 1MP support, in the event you have connectivity issues initially or down the road.
