How to Draw a Beautiful Compass Rose—Students draw a detailed compass rose.	Compass Rose—Students learn compass directions.	How Far?—Students measure distances and answer questions.	Royal Castle Floor Plan—Students follow directions and draw symbols on the floor plan.	Using a Map Scale—Students practice measuring distances.	Hopeville Map	Hopeville Questions—Map practice with challenge questions. Students can work in pairs or teams and compete to find answers.	Neighborhood Map—Student practice reading maps.	Community Map—Students practice reading maps.	Section 5 – Geography Skill Builders	Jewelry—Students can choose from five different jewelry ideas to make.	Make Samian Pottery—Students make Roman pottery.	Design a Personal Coin—Students create a coin that represents them.	Make a Simple Sundial—Using simple materials students build a sundial and mark the time.	A Parachute Kite—Students build a parachute kite out of a plastic bag and string.	Leonardo Da Vinci's Glider foldable model—This is a paper model of a Da Vinci drawing. Student cut out and put together.	Mona Lisa Coloring	Leonardo da Vinci—Background information	Dress the Roman Soldier paper doll	Ancient Rome Soldier's Uniform Papercraft—This is a paper model of a roman soldier. Students cut out, glue/tape together.	How to Make a Roman Shield—Students create shields.	The Roman Army—Background information	Make a Laurel Wreath—This sheet provides leaf outlines to help create a crown.	How to Make a Roman Laurel- a crown of leaves—Students create crowns.	How was Rome Governed?—Background information	The Romans - Entertainment - Background information	The Romans - Clothing—Background information	The Romans – Education—Background information	Roman Society—Background information	Make a Mobile of the Roman Gods—Students color and create mobiles depicting the Roman Gods.	Religion in Rome—Information and questions about beliefs.	Early Beliefs and Worship—Background information	Make a Marvellous Mosaic—Students create mosaics.

Elements of a Folktale—Students list the characters, problems,	Note-taking Tree—Students answer who, what, when, where and summarize the story.	Storyboard—Students choose four important events from the story. Then, they sketch the scene and write a one or two sentence summary about the event.	Folktale Lesson Plan Guide—Read folktales from Japan, Kenya, Italy and Puerto Rico. Have students record information about the stories on one of four different note taking forms listed.	The Tragedy of Julius Caesar—(Reader's Theater) Students will learn about the famous play written by William Shakespeare and present an oral reading.	Two Flat Friends Travel the World—(Reader's Theater) Student will identify the uniqueness of various cultures around the world and present an oral reading.	This Same Sky—(KidzLit) Students will learn that poetry is a universal language for use to express and understand what we feel. Students will read poems from various cultures.	Section 6 FFW & Mani Activities	Continue & LEI A & Math Antivition	Comparing Climates—Students compare three climates using a Venn diagram to show how they are alike and different.	Climate: Charting the Statistics—Students compare three climates to each other and fill in the chart.	Biome Description—Students research one biome and list information about it.	Climate Zones on Earth—Students color the map based on the climate.	Habitats/Biomes—Information regarding Habitats and biomes throughout the world.	Italy Map Activities (blank)—Students will locate key places on the blank map.	Italy Map—This is a map of major places that students can use to learn about geographic locations.	Italy MapStudents locate and color areas on the map.	Label the Continents	Continents Students color certain locations specific colors.	Getting Geographic—Students determine the time zones and what time it is in different places.	World Latitude and Longitude—Students mark on the map locations listed in the activity.	Latitude & Longitude Answer Key	Latitude & Longitude Worksheet—Students identify locations based on their latitude and longitude.	Compass Rose Map: Italy—Students find out what geographic locations surround Italy from all directions.

Missiles and Math—Using math, students figure out how they can hit their target using a catapult.	How Tall Is That Tree?—Leonardo da Vinci used this method to figure out how tall something was when he could not physically measure it. Have students figure out how to do the same.	Activity: Currency Conversion—Students learn how to figure out how much an American dollar is compared to another country's currency.	Designing Dollars and Making Money With Value—Students create currency.	Roman Numerals Practice—This is an additional activity to practice reading Roman numerals.	Roman Numerals—This activity teaches students what the Roman numerals represent. Students practice identifying numbers.	The Metric System Measurement Chart	The Metric System Answer Key	The Metric System—Students answer math questions using the metric system.	Math	and on the other side write as if they are an Italian and tell about what they do.	Postcard Assignment—Students decorate one side of a postcard	Day in the Life Lesson Plan—Students learn about Ilaria from Italy, and complete a Venn diagram comparing themselves to her.	Geo Poem Students write poems using a scaffold about the country they studied.	My GEO Poem—Students write poems using a scaffold about the country they studied.	Acrostic—Students make an acrostic out of the name of the country or region studied.	Abuelita Zapatona (Puerto Rican Folktale)	The Song of Coqui (Puerto Rican Folktale)	Momotaro the Peach Boy (Japanese Folktale)	Kasajizou (Japanese Folktale)	Giricoccola (Italian Folktale)	The Clever Girl (Italian Folktale)	The Ape, the Snake, and the Lion (African Folktale)	The Story of the Lightning, and the Thunder (African Folktale)	Produce a Play/Skit—Students act out a folktale.	Folktale Enrichment Activity Guide—This guide has ideas for activities you can do beyond the folktale stories.	occurred in the story. In addition, they tell what happens in the beginning, middle and end, and finish with the theme.	and describe the story and lesson or moral learned from the story.

Diversity

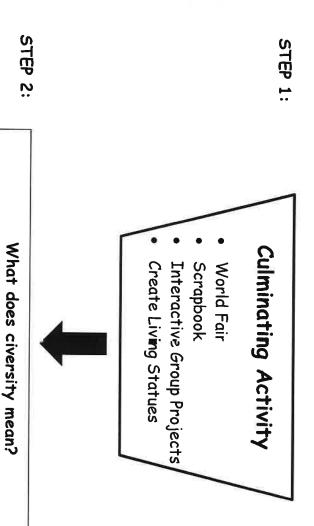

Steps To Follow for Planning and Scheduling a Unit

STEP 1: Begin with the End in Mind-- What do you want students to be able to do after learning about DIVERSITY and a different culture? How will they show others what they

STEP 2: Teach to Topic—What is Diversity? What is culture?

to teach them? STEP 3: Assist students in learning what they need to show. What activities will you use

STEP 4: Prepare/practice/present what students learned

STEP 3:

Activities that show diversity and cultural awareness Learn language, history, traditions of other groups

STEP 4:

Show What You Know

STEP 5: Plan & Schedule Activities

Week 1: Teach what Diversity means (EXAMPLE)

Monday	Tuesday	Wednesday	Thursday	Friday
Review Rules,	Research Italy,	Research Italy,	Research Italy,	Research Italy.
