Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Bush Elementary is implementing a Schoolwide Program.

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Bush Elementary's school plan aligns with the district's Local Control Accountability Plan (LCAP) as each goal (and its associated strategy(ies)/activit(ies)) can be referenced to the LCAP's intent.

Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

Involvement Process for the SPSA and Annual Review and Update

Bush Elementary developed a one-year (2020-2021) school plan which aligned to the district's goals and incorporated strategies specific to its school. The original plan was reviewed by the school's School Site Council on 5-19-20.

Throughout the 2019-2020 school year, the School Site Council reviewed the activities relating to budget adjustments and modifications to the strategies originally identified, this included reviewing the use of the instructional assistants in conjunction with the new curriculum, the use and effectiveness of the mentor from the Raising Youth Resilience program that we partnered with Chavez High School, and any conference/professional development opportunities brought forward by staff, administration and parents. Additionally, when reviewing needs for the school SSC reviewed the DMM that was completed and shared in March 2020. Student achievement data, student attendance data, and student suspension data were all reviewed in the preparation of the DMM in the areas of continuous improvement-chronic absenteeism, continuous improvement-achievement in ELA, continuous improvement-achievement in mathematics, and continuous improvement-school climate. Additionally, team discussed use and effectiveness of the SAP program, frequency and type of school counselor response, use and referral numbers to mental health clinician, use and referral numbers to special education services. Team also reviewed attendance data of staff in regards to district and outside professional development and training opportunities.

The stakeholder engagement process in an ongoing, annual process. Stakeholder input is continuously sought at leadership meetings, school site council meetings, English learner advisory meetings, and parent coffee hours. Additionally, input and review of the school program is conducted through the completion of the FIA process utilizing yet another group of school advisors. Overall, the findings are centered on the fact that we need to improve student achievement for all of our students in the areas of mathematics and language arts. In language arts we have seen consistent and steady growth in the overall number of students meeting or exceeding standards and significant gains in closing the gap in the distance from standard, however in the area of mathematics we have plateaued at roughly 25% of students meeting/exceeding standards. We are particularly interested in analyzing future data to see if district's newly adopted curriculum in mathematics will make a positive impact in our student achievement growth in mathematics. In addition to student achievement we also need to focus on decreasing chronic truancy and suspension rates.

As a result of the stakeholder involvement and data reviews, Bush Elementary has been able to complete the Decision Making Model (a component of the CNA) in March of 2020. The findings of this needs assessment included the following needs:

- .5 FTE Assistant Principal (for a total of 2) see all 4 DMMs for justification
- .4375 FTE Community Assist to continue and increase efforts in increasing authentic parent involvement
- 1.0 FTE program specialist to oversee ELD program, state standardized testing, school-wide AVID program implementation, use of school library, and curriculum implementation support

Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

Annual Review – Goal 1

SPSA Year Reviewed: 2018-2019 (Year 2) and 2019-2020 (Year 3)

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

Analysis

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

2018-2019 (Year 2):

Implementation

2.1 Co-teaching, demo lessons, and coaching took place the first semester of the school year, thereafter our instructional coach was out on medical leave. Professional development was provided on ELA, mathematics, and new ELD curriculum throughout the summer. In addition over a dozen teachers attended AVID Summer Institute training. Students participated in MAPs assessments three times throughout the year to measure growth in math and ELA. Teachers conducted AVID assessments to measure implementation of program strategies.

2.2 Students who were identified as English Learners received Designated instruction daily. ELD teachers received specific professional development and support for ELD instruction.

2.3 Unable to hire an instructional assistant, job was posted multiple times no viable candidates

2.4 Classroom observation. Student projects. Student work.

2.5 Student trips, projects, student work

Effectiveness

2.1 SBAC data shows that student growth occurred, particularly in the area of ELA as students meeting or exceeding standards increased and the distance from standard decreased. Math growth was minimal, MAPs assessments showed growth from Fall to Spring however SBAC scores did not reflect that growth.

2.2 Over 50 students were redesignated as English proficient.

2.3 None.

2.4 Reflected in student growth

2.5 None.

2019-2020 (Year 3):

Implementation

2.1 Co-teaching, demo lessons, and coaching took place throughout the school year up to school closure due to COVID. Thereafter teacher support shifted to virtual support and focused on supporting instructional delivery online, teachers received countless hours of support from instructional coaches and program specialist in creating Google classrooms, using Zoom, Google Meets and other virtual platforms to deliver both synchronous and asynchronous instruction. Professional development was provided on ELA, mathematics, and new ELD curriculum throughout the school year. Additionally, instructional coaches and admin was supported in the implementation of the new curriculum throughout the year by Pivot and CORE partners. In addition over a dozen teachers attended AVID Summer Institute training prior to the 19-20 school year. The district transitioned from MAPs to iReady diagnostics, students were to participate 3 times (except for K) in order to measure growth on standards, again due to COVID closure students were only able to participate in 2 administrations of the assessment. Teachers conducted AVID assessments to measure implementation of program strategies.

2.2 Students who were identified as English Learners received Designated instruction daily. ELD teachers received specific professional development and support for ELD instruction. Teachers received specific professional development in implementation of newly adopted ELD curriculum.

2.3 Two instructional assists were hired part way through year. One instructional assistant was hired 9-9-19, second instructional assistant was hired 11/1/19 and resigned on 2/7/20.

2.4 Classroom observation. Student projects. Student work.

2.5 Student trips, projects, student work

Effectiveness

2.1 AVID implementation evidence allowed us to maintain our certification status. CORE walks showed that implementation of curriculum was advancing as expected throughout the year as teachers became more comfortable with the components and delivery methods.

2.2 Unable to measure growth in this area due to COVID closure, we were in the midst of ELPAC assessment when closure happened.

2.3 Impact of instructional assists was limited due to late hires as well as new time demands of the new ELA curriculum. Instructional minute demands of the new ELA curriculum in K-6 made it difficult for teachers to adhere to strategic intervention times-which is when the instructional assists would be used.

2.4 reflected in student growth

2.5 limited effectiveness-most trips cancelled due to pandemic

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Amendments

The purpose of this amendment will reflect programmatic and budgetary adjustments resulting from COVID-19 restrictions requiring distance learning and virtual interactive opportunities. Bush's School Site Council (SSC) reviewed and approved the changes which have been detailed in their minutes.

Other adjustments reflected are business as usual modifications to cover the cost of minor transactions based on actual costs, such as maintenance agreements or salary adjustments, and/or correction to object code assignment.

Furthermore, Bush's Parent Involvement 1% allocation has increased. The funds have been reviewed and approved by the School Site Council.
