Version 2

SPSA: Goal 1, Strategy 1:

LCFF –

- **\$19,380 – 11500 – Teacher Additional Comp:** Reallocated funds so teachers could collaborate with parents above the 18 hours as contracted, as well as provide small group tutoring after school hours; thereby, increasing extended day/year support for all grades to reteach concepts and provide additional connection to support students by focusing on foundational reading skills such as letter identification, phonemic awareness, building reading fluency and comprehension skills, from the instructional day. 19 hours X 17 teachers X \$60 = \$19,380. Teachers will use assessments created by their grade level to measure student progress. Teachers will examine this data every two weeks to monitor the progress of their students.
- **\$1,562 – 21500 – Instructional Assistant Additional Comp:** Reallocated funds to increase extended day/year support for all grades to reteach concepts and provide additional connection to support students by focusing on foundational reading skills such as letter identification, phonemic awareness, building reading fluency and comprehension skills, from the instructional day. 31 hours X 1 Instructional Assistant X \$50 = \$1,550 (allocating \$1,562). Teachers will use assessments created by their grade level to measure student progress. Teachers will examine this data every two weeks to monitor the progress of their students.
- **\$3,000 – 58450 – License Agreement:** Reallocated funds to purchase a license agreement to obtain teacher-created, teacher-tested classroom resources to enhance instruction for students.

SPSA: Goal 1, Strategy 3:

LCFF –

- **\$2,000 – 57150 – Duplicating:** Reduce funds due to COVID-19 restriction pertaining to distance learning, in-person instructional is not able to be conducted; therefore, duplication of materials is not necessary.

SPSA: Goal 2, Strategy 1:

LCFF –

- **\$1,000 – 43200 – Non-Instructional Materials/Supplies:** Reduce funds due to COVID-19 restriction pertaining to distance learning, planners were not necessary.

SPSA: Goal 3, Strategy 1:

Due to a funding increase from the State in the District's 2020-2021 Title I allocation, Mata is receiving additional monies in Parent Involvement (Cost Center: 50647). Mata's revised Parent Involvement as of 12/2020 is shaded yellow. This increase will be distributed to object code 43200 – Non-Instructional Materials/Supplies for the purchases of hands-on materials supporting math, English and science skills taught to parents to support their student.

LCFF –

- **\$20,942 – 22101 – .4375 FTE Community Assistant:** Reduced funds resulting from a vacancy of the position. Recruitment efforts were made and unsuccessful. Since that process, the district implemented a hiring freeze; therefore, recruitment efforts have ceased. Due to COVID-19 restrictions resulting in distance learning the position is no longer needed.

Version 3 (Final 2020-2021 Version)

The purpose of the Version and SPSA adjustment is to incorporate changes to the 2021-2021 Title I Allocation, additional/adjustment to 2020-2021 strategies/activities based on the changes of COVID-19 restrictions, and the continuation of the SPSA for the upcoming 2021-2022 school year.

2020-2021 Title I Allocation Revision Statement

There are two reasons for the adjustment.

Reason 1: The district's overall Title I allocation increased, which resulted in an increase of Parent Involvement (50643) funds. This increase was communicated and captured through the Mid-Year SPSA change process for most school sites. However, due to changes based on Reason 2, further adjusted allocations again. State & Federal Programs is implementing funding alternatives to ensure schools will not be negatively impacted.

Reason 2: The district's 2020-2021 Title I allocation was calculated using the most current 2019-2020 CALPADS data available at the time of the CONAPP application submission, prompting the release of the 2020-2021 preliminary allocations. Since that time, the district's closure of Tyler Elementary and the subsequent opening of Mata Elementary school resulted in a shift of students attending the new school. Because of the shift in students, the 2019-2020 (previous year's CALPADS data) cannot be used. The most current and available CALPADS data is 2020-2021, resulting in allocation adjustment to all school sites. Unfortunately, the initial calculation was not favorable to school sites, meaning the new allocations were less than the preliminary budget allocations. Realizing the hardships this would cause, State and Federal Programs modified the per pupil rate to ensure schools would not be negatively affected.

2021-2022 SPSA Continuation Statement

The 2021-2022 SPSA Update has been incorporated in this version as a continuation update. The "final" 2021-2022 SPSA will be completed as a stand-alone plan following a review of October 2021 student enrollment data. Furthermore, sites may experience the need for re-evaluation of proposed strategies/activities due to instructional transitioning from distance learning, hybrid, and in-person. This re-evaluation may adjust the strategies/activities and their subsequent proposed expenditure of funds.

2021-2022 School/SMART Goals

Goal 1:

ELA: By EOY 2022, per iReady Diagnostic 3 Results Report, the total number of students performing 2 or more grade levels below will decrease by 47 students.

EL: By EOY 2022, per ELPAC, increase the number of students who reclassify by 5 students.

Math: By EOY 2022, per iReady Diagnostic 3 Growth Report, 40% of Grade 4-8 students will achieve iReady annual typical growth goals.

Flora Mata's EOY K-8 i-Ready Analysis

June 11, 2021

EOY 20-21 K-8 Analysis

SUSD administered the EOY i-Ready diagnostic between April and May 26th. This is the first time SUSD has administered the EOY diagnostic so these results should be considered baseline. Note there was some score inflation in the fall and winter so end of year results, particularly kindergarten) and all growth results should be interpreted cautiously.

This analysis illustrates your school's K-8 ELA and Math end of year strengths and challenges. More specifically this analysis focuses on four key areas:

- Proportion of Students at grade level and two/three or more years below grade level overall, by grade and key subgroups.
- Proficiency level growth and % of no growth, some growth, and typical/stretch growth met overall, by grade, and disaggregated by subgroups (see the next slide for growth category definitions);
- Domain strengths and challenges; and
- i-Ready lesson completion.

The Research and Accountability department would like your feedback on the usefulness of this analysis and your suggestions for improvements for future i-Ready analysis. After you have reviewed this presentation, please answer the prompts in this [feedback form](#) (note this link is also on the last page of this analysis).

Definition of Key Measures and Background

Growth Definitions (for slides 14 - 17)

No Growth: Students who have not made any scale score growth between the BOY and EOY diagnostics are considered to have made no growth over the course of the year. These numbers should be interpreted cautiously as they could also reflect students simply not trying to show their accurate performance on the EOY test.

Some Growth: Students have grown between 1 and 99 percent of their expected typical growth. See below for more information on Typical Growth.

Typical Growth: I-Ready assigns all students a year long typical growth target based on their initial diagnostic score. These targets are calculated based on i-Ready's research and represent the median growth of students starting at the same grade and initial scale score (See the appendix for the specific targets by grade). At the end of the year 50% of students meeting their typical growth would be considered matching the national norm. Unfortunately at this point, we don't know what the typical growth norm is for distance learning.

Stretch Growth: By analyzing students who moved from below grade level to grade level, i-Ready calculated stretch growth targets for students based on their initial scale score. These targets represent the growth students need to learn in order to accelerate their learning up to grade level (note this may take several years to occur).

EOY Versus Standard View

i-Ready's End of Year View reflects grade level cut points (i.e. any student at/above grade level met the cut points). The data in this presentation reflect the EOY view with the exception of the Domains. Domains reflect i-Ready's standard view which indicates if students are in the "grade level range" not just at grade level.

Participation

Overall 88.2% of your school's students in ELA and 86.7% in math took the End of Year i-Ready diagnostic.

20-21 i-Ready ELA and Math Grade Level and On-Track Scale Cut Scores

SUSD's grade level cut scores represent the scale score students need to demonstrate skill mastery at the Beginning, Winter, and EOY. The goal is for all students to reach the EOY grade level cut score for their grade. The "on-track" cut, indicates which students are likely to meet either their EOY grade level (K-2 and 9-12) or SBAC proficiency targets (3-8). On-tracks cuts are based on students' typical growth goals (i.e. the typical growth goals for students 1 year below grade level and 9 points for students in grades 9 – 12).

*BOY On-Track is calculated by subtracting the typical growth of a student 1 year below grade level from the EOY target in grades K-2. For grades 3-8 it is calculated by subtracting the typical growth of a student 1 year below grade level from the SBAC proficient target cut.

**Winter Grade Level is ½ of the distance between the BOY and EOY grade level cuts.

***Winter On-Track cuts are calculated by subtracting ½ of students' typical growth from the EOY K-2 and SBAC 3-8 cut scores.

Definition of Key Measures and Background

Growth Definitions (for slides 14 - 17)

No Growth: Students who have not made any scale score growth between the BOY and EOY diagnostics are considered to have made no growth over the course of the year. These numbers should be interpreted cautiously as they could also reflect students simply not trying to show their accurate performance on the EOY test.

Some Growth: Students have grown between 1 and 99 percent of their expected typical growth. See below for more information on Typical Growth.

Typical Growth: I-Ready assigns all students a year long typical growth target based on their initial diagnostic score. These targets are calculated based on i-Ready's research and represent the median growth of students starting at the same grade and initial scale score (See the appendix for the specific targets by grade). At the end of the year 50% of students meeting their typical growth would be considered matching the national norm. Unfortunately at this point, we don't know what the typical growth norm is for distance learning.

Stretch Growth: By analyzing students who moved from below grade level to grade level, i-Ready calculated stretch growth targets for students based on their initial scale score. These targets represent the growth students need to learn in order to accelerate their learning up to grade level (note this may take several years to occur).

20-21 i-Ready ELA and Math Grade Level and On-Track Scale Cut Scores

SUSD's grade level cut scores represent the scale score students need to demonstrate skill mastery at the Beginning, Winter, and EOY. The goal is for all students to reach the EOY grade level cut score for their grade. The "on-track" cut, indicates which students are likely to meet either their EOY grade level (K-2 and 9-12) or SBAC proficiency targets (3-8). On-tracks cuts are based on students' typical growth goals (i.e. the typical growth goals for students 1 year below grade level and 9 points for students in grades 9 – 12).

*BOY On-Track is calculated by subtracting the typical growth of a student 1 year below grade level from the EOY target in grades K-2. For grades 3-8 it is calculated by subtracting the typical growth of a student 1 year below grade level from the SBAC proficient target cut.

**Winter Grade Level is ½ of the distance between the BOY and EOY grade level cuts.

***Winter On-Track cuts are calculated by subtracting ½ of students' typical growth from the EOY K-2 and SBAC 3-8 cut scores.
