Dear Colleagues and Community,

On June 26, 2018, the Board of Trustees approved the recommendation to conditionally approve the District's Budget and LCAP. The District has committed to revising its LCAP and all associated Budget revisions by September 2018. This will provide me, as the new Superintendent, with time to address the areas of the LCAP that requires refinement in the strategy and language of specific items in the LCAP.

As I shared in my introductory letter, to ensure success as a team, there are two essential factors: not being confused about our mission and an unshakable belief that every single student can and will be highly successful at being college, career, and community ready when they graduate from SUSD. I believe our mission is at its core: lifting youth out of poverty and the overwhelming evidence on how this is best done is through high quality education!

The Budget is intended to support this mission, and I am confident in our ability to not only meet our goals, but ultimately exceed them. The 2018-19 Adopted Budget book includes several elements to provide a profile of the District to include a Budget Development Summary and significant elements used to forecast the District's budget such as enrollment, average daily attendance (ADA), and staffing ratios. You will also have the ability to review the District's Adopted budget, which includes a multi-year projection in the State's Standardized Account Code Structure (SACS) report format, as well as our summarized District General Fund, and school site budgets.

It is our intent to consistently provide a comprehensive and transparent budget document that is not only accessible to all, but one that assures confidence in the District's management of the resources that provide a truly collaborative and trusting culture in our District. I sincerely thank our LCAP and Budget teams for their diligent work and effort to ensure we met the criteria for a complete and timely submission of these critical documents that help illustrate our story.

Respectfully,

A handwritten signature in black ink that reads "John E. Deasy". The signature is written in a cursive style with a large initial "J" and "D".

BUDGET DEVELOPMENT & OVERVIEW

2018-2019

$A+B=C$

2018-2019 General Fund Budget Development

Developing a school district General Fund budget is an extensive and multi-faceted process that begins in the fall of one calendar year and ends in the spring of the next. Ultimately, a budget will reflect the priorities the Governing Board, school district, and community see as critical to advancing towards a set of stated goals and objectives.

The process of budget development involves virtually every stakeholder in the school district community. The State provides much direction about the level and type of funding that school districts receive. Local factors influencing the set of available resources include estimating the number of students who will attend our schools, identifying the staff necessary to support learning, and determining the needs of other ancillary services to support the instructional program. These factors are critical because approximately 90% of the school district's operating revenue comes from state sources. Understanding other broader impacts from an economic, political, and fiscal standpoint also play into the development of the budget. The following is a display of some of the major assumptions that have gone into the construction of the 2018-19 General Fund budget for the Stockton Unified School District.

Budget Assumptions – Unrestricted

Major Revenue Assumptions

Enrollment and Average Daily Attendance (ADA)

2018-19 Projected Enrollment with Charter Schools - 37,800 (Detail on page A-4)

2018-19 Projected Enrollment without Charter Schools – 35,490 (Detail on page A-4)

2018-19 Projected P-2 ADA – 33,064 (Detail on page A-7)

Cost of Living Adjustment (COLA)

Statutory COLA – 2.71%

Local Control Funding Formula (LCFF) COLA – 3.00%

(Based on May Revise information. LCFF COLA since adjusted to 3.70%.)

Lottery Revenue

Unrestricted Lottery - \$146.00 per ADA

Restricted Lottery - \$48.00 per ADA

Local Control Funding Formula (LCFF)

LCFF - Base Grant Entitlements – Target Funding

Based on the Governor's May Revision, \$3.2 billion is budgeted state-wide for full funding of the Local Control Funding Formula (LCFF). Each school district receives a base grant allocation calculated by grade span: K-3, 4-6, 7-8, and 9-12. A cost of living adjustment (COLA) of 3.00% is provided for 2018-19, a combination of the Statutory COLA of 2.71% and additional LCFF funding. This is shown in the table below.

Factors	Gr. K-3	Gr. 4-6	Gr. 7-8	Gr. 9-12
2017-18 Base Grant per ADA	\$ 7,193	\$ 7,301	\$ 7,518	\$ 8,712
COLA @ 3.00%	\$ 216	\$ 219	\$ 226	\$ 261
2018-19 Base Grant per ADA	\$ 7,409	\$ 7,520	\$ 7,744	\$ 8,973

LCFF – K-3 CSR and CTE Adjustments – Target Funding

In addition to the base grant, school districts receive adjustments for K-3 Grade Span Adjustment (GSA) and Career-Technical Education (CTE). These adjustments are percentages of the base grant amounts, as shown in the following table. See Page A-7 for additional information on the Grade Span Adjustment.

Factors	Gr. K-3	Gr. 4-6	Gr. 7-8	Gr. 9-12
2017-18 Base Grant per ADA	\$ 7,409	\$ 7,520	\$ 7,744	\$ 8,973
Adjustment Percentage	10.4% GSA	-	-	2.6% CTE
Adjustment Amount	\$ 771	-	-	\$ 233
Adjusted Grant per ADA	\$ 8,180	\$ 7,520	\$ 7,744	\$ 9,206

LCFF – Supplemental and Concentration Grants per ADA – Target Funding

Supplemental and concentration grant increases are calculated based on the percentage of total enrollment accounted for by English learners, free and reduced meal (FRPM) program eligible students, and foster youth.

Factors	Gr. K-3	Gr. 4-6	Gr. 7-8	Gr. 9-12
Adjusted Grant per ADA	\$ 8,180	\$ 7,520	\$ 7,744	\$ 9,206
20% Supplemental Grant	\$ 1,636	\$ 1,504	\$ 1,549	\$ 1,841
50% Concentration Grant (for eligible students exceeding 55% of enrollment)	\$ 4,090	\$ 3,760	\$ 3,872	\$ 4,603
Total Adjusted Target Funding Amount	\$ 13,906	\$ 12,784	\$ 13,165	\$ 15,650

Major Expenditure Assumptions

Certificated Salaries

Certificated salaries – Based on negotiated contract
Step & Column Adjustment - 1.263%
Additional teachers added for K-3 Grade Span Adjustment

K-3 Grade Span Adjustment

As a condition of receiving the K-3 Grade Span Adjustment (GSA) funding through the Local Control Funding Formula (LCFF), equal to 10.4% of the K-3 base grant, school districts must meet one of the following conditions:

- If a school site's average K-3 class enrollment was more than 24 pupils in the 2012-13 fiscal year, the school site must make progress toward maintaining an average K-3 class enrollment of not more than 24 pupils.
- If a school site's average K-3 class enrollment was 24 pupils or less in the 2012-13 fiscal year, that school site must maintain an average K-3 class enrollment of not more than 24 pupils.
- Agree to a collectively bargained alternative to the statutory K-3 GSA requirements.

Stockton Unified has elected condition three and has collectively bargained an alternative to the statutory K-3 GSA requirements. The table below displays the alternative class sizes to be maintained at District school sites by fiscal year.

Grade	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19	2019-20

General Fund Financial Summaries

Schedules are presented on the following pages which display General Fund financial summaries for the 2017-18 year, the budget year of 2018-19, and a multiyear schedule which includes projections of revenues and expenditures for the 2019-20 and 2020-21 fiscal years.

A schedule of the General Fund estimated actual balances for 2017-18 is presented by major object on page A-16. The 2017-18 General Fund unrestricted estimated actual balances are presented on page A-17.

The 2018-19 budget for the General Fund is presented by major object categories on page A-18. The budget projects expenditures exceeding revenue by \$22,500,759. The projected Net Ending Fund Balance at June 30, 2019 is \$96,969,495. Also included on this schedule is a breakdown of the components which make up this net ending balance.

Displayed on page A-19 is the 2018-19 General Fund unrestricted budget summary. As budgeted, 2018-19 unrestricted expenditures exceed revenues by \$18,602,293.

Charts and graphs of General Fund revenues and expenditures are shown by major object on pages A-20 and A-21. The unrestricted fund balance for the General Fund is shown for fiscal years 2014-15 through the 2018-19 budget year on page A-22.

On page A-23, a General Fund Unrestricted Multiyear schedule is presented. This schedule shows not only the estimated actual balances for the 2017-18 year and the budgeted totals for 2018-19, but also displays projections for the 2019-20 and 2020-21 fiscal years. The District must be constantly aware of how financial decisions affect not only the budget year, but also years into the future. Some financial decisions are one-time in nature and will affect only one fiscal year. Other decisions, such as a salary increase, will affect the fiscal year the salary increase is given, but will also affect each succeeding year as these decisions become a continuing commitment by the District. Projecting out District financial activities two years past the budget year allows Business Office staff to determine how financial decisions impact the District in an effort to maintain the strongest financial position possible. This schedule projects the District with a declining, but strong, net ending balance through the end of the 2020-21 fiscal year.

A breakdown of Local Control Funding Formula revenue is presented on page A-24. The breakdown reflects the estimated actual totals for 2017-18, the budget for 2018-19, and the projected totals for the 2019-20 and 2020-21 fiscal years. LCFF revenue is projected to grow by over 9% between the 2017-18 and 2020-21 fiscal years.

Fund Balance – Unrestricted General Fund

One of the critical indicators of a school district’s fiscal solvency in the State of California is the amount held in reserve, what might be easily considered a savings account for a school district. Stockton Unified has been able to maintain a sufficient reserve over the last several years to meet all fiscal requirements.

Below is a historical graph of the District’s unrestricted General Fund balance along with a projected balance for the 2017-18 year and the upcoming 2018-19 fiscal year. The numbers presented are in millions of dollars.

Summary

The District continues to maintain fiscal solvency. While receiving an increase to state funding, the District's financial condition is impacted by increases in salaries and health care benefits costs, increases in costs due to changes in law for STRS and PERS, and continuing negotiations on salaries and compensation. Proper planning and oversight will be required to balance District financial resources with educational goals and objectives.

School Site Budgets

The following pages reflect school site budgets for the fiscal year 2018-19.

Each page is grouped into unrestricted general purpose programs listed by cost center, and restricted (categorical) programs listed by resource. Each program is broken down by major object expenditure categories:

- **Certificated Salaries** – This category represents salaries paid to school site employees who are required by the State of California to hold teaching credentials, including full-time, part-time, substitute or temporary teachers, and school site administrators.
- **Classified Salaries** – Salaries paid to school site employees not required to hold teaching credentials, such as secretaries, clerks, and custodians.
- **Employee Benefits** – Expenses in this category represent amounts paid by the District on behalf of school site employees. These amounts are not included in the salary of employees and are a cost to the District. Included in this category are amounts paid for health and welfare benefits, employee retirement costs, and the employer share of payroll taxes.
- **Books and Supplies** – Expenses in this category include approved textbooks, core curricula materials, reference books and materials, and consumable supplies.
- **Other Operating Expenses (Services and Contracts)** – Included in this category are expenditures for rentals, leases, maintenance contracts, utilities, and other operating expenses. Expenditures in this category may be authorized by contracts, agreements, or purchase orders.
- **Equipment and Capital Outlay** – Items expensed in this category include the purchase of equipment and certain intangible assets.
- **Other Outgo** – Other Outgo includes payments for tuition, transfers of various costs, and debt service principal and interest payments.

These budget pages have been prepared as a District-wide report and contain both site budgets and department budgets. The site budget section comprises pages 1 - 74. The department and program budgets are found in the next section of this book.

Department and Program Budgets

The following pages reflect department and program budgets for the fiscal year 2018-19.

Each budget page displays the following sections depending on funding:

- Unrestricted general purpose programs listed by cost center;
- Restricted (categorical) programs listed by resource; or
- Both sections.

Each program is broken down by major object expenditure categories:

- **Certificated Salaries** – This category represents salaries paid to employees who are required by the State of California to hold teaching credentials, including many central office and program administrators.
- **Classified Salaries** – Salaries paid to employees not required to hold teaching credentials, such as secretaries, clerks, custodians, and some central office and program administrators.
- **Employee Benefits** – Expenses in this category represent amounts paid by the District on behalf of central office and program employees. These amounts are not included in the salary of employees and are a cost to the District. Included in this category are amounts paid for health and welfare benefits, employee retirement costs, and the employer share of payroll taxes.
- **Books and Supplies** – Expenses in this category include reference books and materials, food costs, and consumable supplies.
- **Other Operating Expenses (Services and Contracts)** – Included in this category are expenditures for rentals, leases, maintenance contracts, travel and conference costs, utilities, and other operating expenses. Expenditures in this category may be authorized by contracts, agreements, or purchase orders.
- **Equipment and Capital Outlay** – Items expensed in this category include the purchase of equipment and certain intangible assets.
- **Other Outgo** – Other Outgo includes payments for tuition, transfers of various costs, and debt service principal and interest payments.

These budget pages have been prepared as a District-wide report and contain both site budgets and department budgets. The site budgets are found in the previous section. The department and program budgets are found in this section and comprise pages 75 - 120.

Glossary of Selected Terms

AB 1200 - Referenced to Assembly Bill 1200, passed in 1991 that imposed major fiscal accountability controls on school districts by establishing minimum reserve levels and other requirements for agency budgets and fiscal practice.

Actual Expense - The total cost after the accounting records are closed; no further estimates are required as the year has been completed and all costs are known.

Apportionment - State aid given to a school district. Apportionments for revenue limits and special education are calculated four times each school year: 1) the Advance Apportionment, which is based on an agency's prior year's state aid, 2) the First Principal Apportionment (P-1) which corresponds to the P-1 ADA (see Attendance Reports), 3) the Second Principal Apportionment corresponding to the P-2 ADA, and 4) the annual recalculation of the apportionment based on the P-2 ADA (except for programs where the annual count of ADA is used).

Attendance Reports - Each school district reports its attendance three times during a school year. The First Principal Apportionment ADA, called the P-1 ADA, is counted from July 1 through the last school month ending on or before December 31 of the school year. The Second Principal Apportionment ADA, or P-2 ADA, is counted from July 1 through the last school month ending on or before April 15 of the school year. Fiscal or annual ADA is based on the count from July 1 through June 30. Funding for the revenue limit appropriation received from the state is based on P-2 ADA. Non-public schools, community day schools, and extended year all use the annual ADA for funding determination.

Average Daily Attendance (ADA) - For regular attendance, ADA is equal to the average number of pupils actually attending classes who are enrolled for at least the minimum day. Since the 1998-99 school year, excused absences no longer count toward ADA. In classes for adults and ROC/P, one unit of ADA is credited for each 525 classroom hours. Attendance is counted each day of the school year and is reported to the Department of Education three times a year.

Capital Outlay - Amounts budgeted for the acquisition of new fixed assets or the replacement of existing fixed assets, including land or existing buildings, improvements of grounds, construction of buildings, or initial or additional equipment.

Carryover - An amount budgeted, but not expended, in one fiscal year which is brought forward and rebudgeted in the next fiscal year. An example would be site discretionary funds.

Categorical Flexibility - Section 15 of SBX3 4 (*California Education Code (EC) Section 42605*) authorizes complete flexibility in the use of categorical funds appropriated in 39 budget act items. For 2008-09 through 2012-13, school districts, county offices of education, and charter schools may use funds from these 39 items for any educational purpose

Categorical Funds - Funds from the state or federal government granted to qualifying school agencies for specialized programs regulated and controlled by federal or state law or regulation. Expenditure of most categorical aid is restricted to its particular purpose.

CBEDS - California Basic Educational Data System, the statewide system of collecting enrollment, staffing, and salary data from all school districts on an "Information Day" each October.

Certificated Personnel - Employees who are required by the State to hold teaching credentials, including full-time, part-time, substitute or temporary teachers and most administrators.

Common Core - A revised student assessment system, adopted by 45 states, which is aligned to educational standards for English and mathematics. These standards are called the Common Core State Standards (CCSS). Having the same standards helps all students get a good education, even if they change schools or move to a different state. Teachers, parents, and education experts designed the CCSS to prepare students for success in college and the workplace. Additional assessments will be included and developed using computer-based testing, wherever feasible.

Consumer Price Index (CPI) - A measure of the cost of living compiled by the United States Bureau of Labor Statistics. Separate indices of inflation are calculated regularly for the United States, California, some regions within California, and selected cities. The CPI is one of several measures on inflation.

Cost of Living Adjustment (COLA) - An increase in funding for the revenue limit or for categorical programs. The amount of the COLA may or may not be related to inflationary increases in costs.

Classified Personnel - Employees who are not required to hold teaching credentials, such as secretaries, custodians, bus drivers, and some management personnel.

Declining Enrollment Adjustment - A formula that cushions the drop in income in a school district with a declining student population. Under current law, districts are funded for the greater of current year or prior year ADA.

Deferral of Revenue - Method used by the state of California to help balance its budget. Cash payments, known as apportionments, which are due to local agencies, including school districts, are held up, or deferred, by the state from one fiscal year to the next. Doing so reduces expenditures and helps the state to balance its budget. It also passes on the state's budgetary problems to local agencies who can no longer depend on a regular stream of revenue. The result is the need for local agencies to closely monitor cash flow to assure adequate funding will be available to cover budgeted expenditures.

Deficit Spending - Deficit spending is the amount by which spending exceeds revenue over a particular period of time, also called simply deficit, or budget deficit; the opposite of budget surplus where revenue exceeds the amount of planned expenditures.

Direct Program Costs - Program costs are an accumulation of direct costs by objects, (e.g. 1000 – Certificated Salaries, 2000 - Classified Salaries, etc.) for activities which are for the implementation of a common goal. For example, all costs related to implementing a transportation program would be accumulated by salaries, benefits and supplies – the sum of these objects of expense would comprise the direct costs of the transportation program.

Encroachment - The expenditure of a school district's general purpose fund for special purpose programs, such as Special Education, Special Projects and Transportation.

Encumbrance - A commitment against a budgeted appropriation which, in effect, “reserves” a portion of that appropriation for use in the future.

Entitlement - An appropriation that is based on specific qualifications or formula defined in statute.

Equalization - Extra state aid provided in some years to low revenue school districts to raise or “equalize” their revenue level to that of higher revenue school districts.

Expenditures - The costs of goods delivered or services rendered, whether paid or unpaid, including expense, provision for debt retirement not reported as a liability of the fund from which retired, and capital outlay.

Full-Time Equivalent (FTE) - The ratio of time expended in a part-time position to that of a full-time position.

Fund - A fiscal and accounting entity what a self-balancing set of accounts recording cash and other financial resources, together with all related assets, liabilities, equities and changes therein. These accounts are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Grant - A contribution, either in money or material goods, made by one governmental entity to another.

Local Control Funding Formula (LCFF) - State educational funding system which allows each school district to develop plans for spending funding according to local needs as determined by district stakeholders. Base grants are received by grade span, with additional funding received through Supplemental and Concentration grants determined by the percentage of students qualifying for additional assistance. An accountability system for funding received through the LCFF is developed in a district-prepared Local Control and Accountability Plan (LCAP).which lists goals based on needs and measures progress toward meeting the goals. The LCFF is being

phased in over a number of fiscal years, with full implementation not expected until the 2020-21 fiscal year.

Local Control Accountability Plan (LCAP) - A comprehensive plan of local educational needs and student outcomes projected over a three-year period. Each school district develops a LCAP utilizing stakeholder input. The LCAP sets annual goals for meeting stated needs and outcomes, with accountability measured by progress made towards meeting the goals. The LCAP provides the system of accountability for the Local Control Funding Formula (LCFF).

Resource - Tracks those activities that are funded with revenues that have special accounting or reporting requirements or that are legally restricted.

Restricted Funds - Moneys whose use is restricted by legal requirements or by the donor to specific purposes. There may be activities, other than legal, that are restricted by bargaining unit contracts or by specific laws. All of these restrictions require an appropriation to finance the specific activity.

Revenues - The increases in fund financial resources other than from interfund transfers or debt issue proceeds. Revenues are the primary financial resource of a fund. Revenues are recognized when assets are increased without increasing liabilities or incurring an expenditure reimbursement.

Supplanting - Replacing an existing source of funds with a new fund source to provide the same level of service. This practice is generally unacceptable in federally funded programs.

Target Funding - Funding amounts received by school districts under the Local Control Funding Formula (LCFF). Called target funding because the LCFF program is being implemented over a seven year period with full funding, the "target," not being attained until the 2020-21 fiscal year. Until that time, school districts receive lower funding totals that are adjusted each year until the target is met. Target funding is made up of the following components:

- **Base Grants** – determined by student ADA per life span (TK-Grade 3, Grades 4-6, Grades 7-8, and Grades 9-12). The Base Grant is adjusted each year for a Cost of Living Adjustment (COLA). The Base Grant is also adjusted by an allocation for K-3 Class Size Reduction (CSR) and an allocation for Career-Technical Education (CTE) in grades 9-12.
- **Supplemental Grants** – Additional funding factor provided for each student in a school district who is either an English Language Learner, living in poverty (based on "free and reduced meal" provisions), or a foster youth. Funding is equal to 20% of the unduplicated count percentage, multiplied by the adjusted base grant amount.
- **Concentration Grants** – Additional funding factor equal to 50% of the adjusted base grant for targeted students exceeding 55% of a school district's enrollment.

Unduplicated Count - Count of students qualifying for the free or reduced price meal (FRPM) program, as an English learner (EL), or as a foster youth. Students are counted once even though

they qualify under more than one of these categories. Student counts are reported to the California Longitudinal Pupil Achievement Data System (CALPADS). These counts are the starting point for determining the Unduplicated Pupil Percentage (UPP) used in the Local Control Funding Formula (LCFF) supplemental and concentration grant calculations.

Unrestricted - Unrestricted funds represent those moneys a district receives that are not legally designated for a specific use. They are general in nature and can be used for any educational purpose designated by the Board of Trustees.
