The PD that will be provided is designed to support our SUSD educational leaders in being able to ensure that our schools are equitable and meet the needs of every student. The trainings will give you the opportunity to engage in deeper content focused on the “6 Phases of Equity Leadership”, in order to fine-tune your leadership capacity , close equity gaps and provide you with a framework that you can use to guide equity driven decisions.

This PD series is only open to SUSD District and Site Leaders at this time.
