September 11, 2020

Dear SUSD Families,

It's likely that Flu viruses and the virus that causes COVID-19 will both be spreading this fall and winter, making it more important than ever to get a Flu vaccine. Stockton Unified Health Services, in partnership with San Joaquin County Public Health Services, is offering FREE FLU VACCINES via Drive-Thru Clinics beginning Monday, September 14, 2020. The Drive-Thru Clinic schedule is available at [www.stocktonusd.net/HealthServices](http://www.stocktonusd.net/HealthServices); you may also contact your child's school for more information. The Flu mist or injectable vaccine are available to those who qualify.

Drive-Thru Clinics will be held from 11am-2:15pm. Permission slips and additional dates and locations of clinics are also available on our website at [www.stocktonusd.net/HealthServices](http://www.stocktonusd.net/HealthServices). If a Flu permission slip was returned to your child's school, it will be at the school's Flu Clinic. Parents and siblings may receive a Flu vaccine with signed consent.

We are encouraging all children and adults to get vaccinated during the 2020 Flu season. People who are moderately to severely ill should not receive a Flu vaccine until they recover. The best way to prevent the Flu is by getting vaccinated. Protect yourself and your family by getting a flu vaccine.

California now requires people to wear face coverings in public spaces to help prevent the spread of COVID-19. Please help protect others by wearing a mask when you visit the flu clinics.

In Wellness,  
The SUSD Health Services Team
