WHY CHOOSE IB?
The most encouraging aspect for the staff has little to do with the number of diploma recipients and everything to do with how well their students are prepared for college. Past comments from IB graduates range from, “I’m so well prepared!” to “College is a piece of cake.”
MIDDLE YEARS PROGRAMME (MYP)

Life in the 21st century places many changing demands on students making the transition through adolescence. They are at a crucial period of personal, social, physical and intellectual development, of uncertainty and of questioning. The Franklin High School Middle Years IB Program is designed to help them find a sense of belonging in the ever-changing and increasingly interrelated world around them and to foster a positive attitude to learning.

The IB MYP for students aged 11 to 16, provides a framework of academic challenge that encourages students to embrace and understand the connections between traditional subjects and the real world, and become critical and reflective thinkers.

AN EDUCATIONAL OASIS

High expectations, supportive staff, dynamic teaching and a family atmosphere are all characteristics that students and parents who are part of Franklin High School’s IB program use to describe their school in Stockton.

All teachers work together to provide an exciting and relevant program of academic, practical and interpersonal instruction for their students. Students, along with their teachers, are encouraged to develop the characteristics described in the IB Learner Profile.

WHAT MAKES US UNIQUE?

The Franklin IB program is one of few programs established in a socio-economically and ethnically diverse community. Our view is that this is one of the major strengths of our program. In addition to receiving academic preparation rigorous enough to prepare them for success in any university, our students learn to live and work with people from many other ethnic groups and backgrounds. We believe that this “worldly” education is important to their success in college—and in life—as the academic preparation itself.

DIPLOMA PROGRAMME (DP)

The Franklin High School Diploma Program (DP) is designed to prepare students to live in an interconnected, globalized world, which requires critical-thinking skills and a sense of international-mindedness. This is done by emphasizing the development of the whole student—physically, intellectually, emotionally and ethically.

The Diploma Program is an academically challenging and balanced program of education with final examinations that prepares students, normally aged 16 to 19, for success at university and life beyond. It has gained a reputation for its rigorous external assessment with published global standards, making this a qualification welcomed by universities worldwide.
