How the MYP works
MYP begins with the child in mind and works outward.
Global Context connect the child to the academic and physical world.
Approaches to Learning are the skills that must be learned in each subject.
Community Service provides the practice of the Approaches to Learning and Global Context
The academic areas by which students learn and practice their skills and make connections to the world are the following:

- Spanish or French
- English
- History
- Science
- Math
- Art/Music/Theatre
- Physical Education (PE)
- Inquiry (Design)
- Complete the IB Personal Project
Personal Project - The culminating project that showcases what students have learned while in the MYP.
