Communication Plans

Expectations for Families Letter
Cohorts

Students will be kept in small, stable, groups with fixed membership that stay together for all activities and minimize/avoid contact with other groups or individuals who are not part of the cohort.

- No classroom will have more than 16 individuals. This group is considered a cohort and is not allowed to interact with other cohorts of students or adults. Cohorts are currently scheduled outside of the AB 77-minute schedule (generally designed for after school).
- Individual students will bring water containers with them for personal use. Water bottles may not be shared amongst students. Classrooms will be provided with water to eliminate the use of water faucets throughout campuses.
- Students remain 6 feet apart. Classrooms may accommodate 3-foot radius if necessary. Teacher observes 6 ft. distance.

Which students can be served in cohorts during school closures?

The determination is made at the LEA- and school-level based on the needs of students. Students with disabilities should be prioritized by the LEA and school for receiving targeted supports and services. In addition, English learners, students at higher risk of further learning loss or not participating in distance learning, students at risk of abuse or neglect, foster youth and students experiencing homelessness may also be prioritized.

What qualifies as a specialized and targeted support service?

Specialized services are determined by LEAs and include but are not limited to occupational therapy services, speech and language services, and other medical services, behavioral services, educational support services as part of a targeted intervention strategy or assessments, such as those related to English learner status, individualized educational programs and other required assessments.

Also see considerations:
https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/small-groups-child-youth.aspx

Special Education SDC Students will be the first wave of student’s services in cohorts. RSP, homeless, and Foster Students will be the second wave of cohorts. English Language students will be our third wave of cohorts. ALL waves are based on the availability of Transportation and accommodations for Specialized Transportation for Special Education Students as defined in their IEP.

Site Assessment Space:

Current Guidelines from the CDPH-
Per current, August 27, 2020, California Department of Public Health (CDPH) guidelines, all districts are permitted to bring students into a school or district facility for the purpose of assessments. For more details, visit CDPH’s web page at Guidance for Small Cohorts/Groups of Children and Youth. CDPH’s COVID-19 page for complete documentation: https://ca-toms-help.ets.org/fall-admins/

Site assessment spaces will be in rooms 603, 604, and 605
Cohorts:

- Identified seniors in danger of failing government and economics will be brought back to site first.
- Identified freshman in danger of failing multiple courses will be brought back second.
- Any other students with multiple failing grades will be brought back if room and logistics allow.
- Parents will be surveyed about a possible return to school as a cohort in need.
- Identified seniors will attend their scheduled government and economics course only and leave campus if their schedule allows it. If not, they will be housed in a common area and supervised until they have a break in their schedule which allows them to return home.
- Identified freshman will attend as a cohort before or after designated AB 77 minutes during teacher office hours. The group or groups of students will be housed in designated areas and receive support from subject area teachers who will work with them on a rotating basis.
- The school day schedule for students will continue to start at 9:30 am and end at 2:00 to meet AB77 requirements.
- The work schedule will continue to follow contractual hours for each classification of staff with teachers starting at 8:00 am and ending at 3:00 pm.
- Sack lunches with food for lunch and the next day’s breakfast will be distributed as the students leave campus at the end of each day.
- To extent possible, number of total people in classrooms will be limited to 16 total.
  - If number of people exceeds 16, class will be moved to a larger room multiple rooms or outside if feasible
- Students will sit in every other desk, socially distanced as much as possible.
- Teacher will instruct from the front of the classroom only, when possible.
- Students will use an individually assigned Chromebook or personal laptop eliminating sharing.
- Students will bring or be provided materials individually eliminating sharing.
- Students will enter and immediately seat themselves in desks and remain there at all times if possible.
- Students will be dismissed from class in small groups to help with traffic flow and eliminate crowding.
- Areas will be designated for outdoor learning or activities which can be appropriately monitored and distanced.
- All picnic tables will be moved to a designated space and taped to create appropriate distancing and monitoring.
- Students will enter the office and other common areas one at a time following all distancing and health guidelines.
Students Return to On Campus Live Instruction: Date to Be Determined

Hybrid/ Distance Learning: (AB 77 minutes= 240 minutes per day)

- Meals will be served using a grab-and-go system that provides students a lunch meal and breakfast for the following morning.
- Individual students will bring water containers with them for personal use. Water bottles may not be shared amongst students. Classrooms will be provided with water to eliminate the use of water faucets throughout campuses.
- Students remain 6 feet apart - Classrooms may accommodate 3-foot radius if necessary - Teacher observes 6 ft. distance.
- Instruction Based AB77 instructional minutes.

- Depending on number of students surveyed who desire to return school, campus will open on an everyday schedule or a hybrid based on alphabet, grade or a system to create the correct number of students in each classroom while maintaining equity.
- The school day schedule for students will continue to start at 9:30 am and end at 2:00 to meet AB77 requirements.
- The work schedule will continue to follow contractual hours for each classification of staff with teachers starting at 8:00 am and ending at 3:00 pm.
- Sack lunches with food for lunch and the next day’s breakfast will be distributed as the students leave campus at the end of each day.
- To extent possible number of total people in classrooms will be limited to 16 total.
  - If number of people exceeds 16 class will be moved to a larger room or outside if feasible
- Students will sit in every other desk, socially distanced as much as possible.
- Teacher will instruct from front of classroom only and use a webcam for students learning from home.
- Students will use an individually assigned Chromebook or personal laptop eliminating sharing.
- Students will bring or be provided materials individually eliminating sharing.
- Students will enter and immediately seat themselves in desks and remain there at all times if possible.
- Students will be dismissed from class in small groups to help with traffic flow and eliminate crowding.
- Areas will be designated for outdoor learning or activities which can be appropriately monitored and distanced.
- All picnic tables will be moved to a designated space and taped to create appropriate distancing and monitoring.
- Students will enter the office and other common areas one at a time following all distancing and health guidelines.
- A plan for PE will be developed following all COVID guidelines and procedures with students possibly staying in street clothes in order to eliminate crowding and sharing of equipment.
- A plan for students in college courses without instructors on campus to be
supervised will be addressed to the best extent possible (over 100 students each period).

Entrance, Egress, and Movement Within the School:

Before School:
Students are not permitted to enter campus before supervision begins at 9:00 am.
All gates will be open in the morning in order to minimize the number of people entering each gate at a time.
Families will need to stay in cars and pick up/drop off students in the parking lot.
Families will need to make appointments prior to entering the interior of the campus.
Walkers/bike riders enter through the designated entry.
Staff will be available to walk younger students to and from their classrooms.
Once on campus, students will head immediately to classrooms.
Students will wash hands in the restroom, at a hand washing station or use hand sanitizer/wash hands in class prior to starting the day.

The movement of students, staff, and parents will be managed to avoid close contact and/or mixing of cohorts. Sites maps will depict movement throughout the school for ingress, egress, and food distribution and regular school business.

All classroom set up and partitions should promote distance required within the classroom setting. Ingress, egress, and movement protocols established with classrooms. Desks will be arranged with 6ft distancing according to the layout of the classrooms used. Plastic shields and signs will be placed to allow for movement and space.

- Students will enter and exit at 3 separate, designated gates.
  - 9th – Main entrance on Vine Street
  - 10th – Parking lot in front of old auditorium/police station on San Joaquin Street
  - 11th and 12th – parking lot on California Street
- Flow of traffic between students will be one way as much as possible.

After School:
All students will be dismissed from the classroom and encouraged to leave campus right away.
Students not picked up will be housed in the cafeteria.
Students will report immediately to the Afterschool program that they are enrolled in.
Students must exit campus immediately after school or after their supervised extracurricular activity ends.
SECA Map:

Note traffic flow of student movement to reduce consistent contact amongst students.
Cleaning and Disinfection:

Shared surfaces will be regularly cleaned and disinfected and the use of shared items will be minimized.

Providing and maintaining a clean school environment is critical to the safety of our staff, students, and community. Custodial employees have the resources and training needed to help maintain a healthy environment for students and staff.

- All restrooms will be fully cleaned hourly and at the end of each day.
- Disinfect hard touch areas in all restrooms once per hour and sign off on the log sheet.
- Disinfectant spray bottles to any staff member who wishes to wipe down their personal space. We do this once per week on a rotating basis.
- Top off hand sanitizer dispensers daily.
- All campus areas are cleaned daily including door handles, light switches, sink handles, bathroom surfaces, tables, students' desks, and chairs.
- Inventory Controls: Supplies and inventory management, Cloth face coverings for students and staff, (individuals are encouraged to use their own cloth face covering), Disposable masks for Care Room, Hand sanitizer or use of available sinks and soap for handwashing, spray bottles and disinfectant and paper towels, every room to clean surfaces. Gloves and other PPE gear such as student and teacher desks shields will be present as well.

Disinfection protocols include school action if an employee/student is suspected or confirmed to have COVID-19 infection:

In most cases, there is not a need to shut down the facility. If it has been less than 7 days since the sick individual has been in the facility, any areas used for prolonged periods of time by the sick person will be closed off:
- 24 hours is a standard waiting period prior to cleaning and disinfecting to minimize potential for other employees being exposed to respiratory droplets. However, if a 24 hour waiting period is not feasible, disinfection will be delayed for as long as possible to be considered safe.
- During this waiting period, open outside doors and windows to increase air circulation in these areas.
- If it has been 7 days or more since the sick employee used the facility, additional cleaning and disinfection is not necessary. Continue routinely cleaning and disinfecting all high-touch surfaces in the facility.
- All protective gear is provided to each custodian and other site personnel as necessary.

Face Coverings and Other Essential Protective Gear:

SUSD requires employees, students, and visitors in school facilities to wear masks or cloth face coverings. Masks and other face coverings are a simple barrier to help prevent respiratory droplets from traveling into the air and onto other people when we talk, cough, or sneeze.

General Information and Guidance
• All masks or face coverings should fully cover the nose and mouth, secure under the chin, and fit securely against both sides of the face. The CDC does not recommend using masks if they have an exhalation valve or vent.
• All school staff and students in 3rd grade and above must wear masks. Students in 2nd grade and below are encouraged to wear masks or face shields.
• Face shields may be worn in addition to a mask, but not in place of a mask or face covering.
• The use of a mask or face covering is not a substitute for physical distancing.
• Desks will have safety shields separating students from each other.
• As students and staff arrive on campus, they must wear a face covering. If they do not have a face covering, they will be provided one by the school. If they refuse to comply, they will be excluded from the campus.
• For specific special populations, per CDPH, for students who have trouble breathing or unable to remove the face covering without assistance are exempt from wearing a face covering. They will be required to wear a face shield or face covering with a clear panel (for lip reading or visual stimulation and facial expressions). Medical notes will be required for those students indicated.
• Surgical and other medical-grade masks may be recommended for specific situations such as:
  • Students/staff who become ill at school.
  • Staff who are screening or caring for a student/staff who is ill.
  • Staff working with students/staff who require health care supports.
  • Signs displayed, stating face covering requirements (masks required even when wearing shields).
  • Staff will monitor proper use of face coverings in classrooms and on campus.
  • Masks will be available in all classrooms and in the main office.
  • All teachers/staff have received a PPE "kit" that includes; masks, face shields, and disinfectant supplies. A kit was supplied for all common areas as well.

Healthy Hygiene Practices:

Hand sanitizer stations and hand washing sinks will be promoted and incorporated into routines.

Availability of hand washing stations and hand sanitizer:

• In classrooms with sinks soaps will be provided so students and staff can perform safe handwashing.
• Classrooms without sinks will be provided hand sanitizing dispensers.
• Hand sanitizer dispensers will be utilized in place of classrooms without sinks. Hand sanitizer stations will be strategically located throughout the campus. Posters of hand washing and healthy hygiene practices will be posted in hallways, restrooms and classrooms.
• Upon entering the classroom daily students will be reminded of healthy hygiene practices by their teachers.
• Students will be engaged in routines through use of Chromebooks. Students will review three short student-friendly videos on healthy hygiene including hand washing, mask wearing, and physical distancing.
• Families and students can utilize the SUSD Health and Safety guide and Hybrid and Distance Learning Guide to review the need for healthy hygiene for hand washing, mask wearing, and physical distancing.
• Videos will be available and encouraged to view through Family Engagement and the COVID Information link on the Stockton Unified School District website. The student-friendly videos on healthy hygiene on student Chromebooks, will be routinely visited by each 1st period teacher on a regular basis to be established by the school as a school wide campaign.
• Teachers are also encouraged to start the instructional day with short reminders regarding hand washing, mask wearing, and physical distancing.
• Each period teachers will develop a routine for students to use the hand sanitizer at staggered intervals.
• Staff meeting – share PowerPoint presentation and check for understanding of the plan.
• Staff starts sharing videos with students and families (COVID-19 Back-to-School Interactive Classroom Slide)
  o What is COVID-19?
  o How to wear your mask?
  o How germs spread?
  o Getting temperature taken at school
  o Hand-Washing
  o Social Distancing
  o Educational Videos
• Family Education – letters sent out, Parent Link phone calls to remind them about the procedures, district will be pushing out “healthy hygiene practices” to students’ Chromebook
• All classrooms have a sink and soap to available for students and staff to perform safe handwashing.
• Sanitizer stations will be location at each entrance to the campus and throughout campus.

Health Screenings for Students and Staff:

Students and staff will be screened for symptoms of COVID-19 by completing the Daily Symptom self-check. Any ill students or staff will be separated from others and sent home immediately.

Health Self Checks: Staff and students are required to self-monitor for symptoms such as fever, cough, and shortness of breath. It is recommended that an individual not attend work or school if feeling any of the symptoms of COVID-19. Students or staff members who have screened and determined they need to go home will be handled in two ways:

• Adults: school officials will direct the adult to return home and make contact with Risk Management. The site administrator or department lead will also inform Risk Management.
• Students: the site will make immediate contact with the family. While waiting for the family to pick up the student, the student will be isolated into a care room until parents arrive.
- Stockton Unified School District has established a secure tracking system for contact tracing that follows the guidance from health professionals to investigate cases and contacts of COVID-19. Contact tracing is a necessary component of reopening schools as we must maintain the safety of our staff, students, and community.

- Qualtrics COVID-19 Self Check System
  - Self-check will be performed with Qualtrics online reporting system and Paper check, when not technology is not available, will be utilized for all on campus Adults. Students will utilize the Daily Symptom Check virtual reporting system (Qualtrics). All staff will engage students upon arrival and remind students of health self-checks.

- Parents and students will be informed that if a student comes to school ill or later develops symptoms, they will be required to pick up their child immediately (within 15-20 minutes, if possible)

- Site COVID Isolation Areas:

  **Site COVID Health Screening Room:**

  Rooms/space have been designated in which students can wait for parent pick up once the site has determined students may have COVID-19 related symptoms. These spaces cannot be utilized for any other purpose. In addition, these spaces should be used on a rotating basis to reduce the possibility of exposure.

  Screening rooms will be 403, 404, and 405.

**Physical Distancing:**

Routines will be arranged to allow for physical distancing of students and staff. Please review the guidelines for physical distancing in the classroom and frequently used areas of the school site.

- Social Distancing Requirements (signage and schedules)
- Teachers and support staff will place signage in classrooms to meet social distancing guidelines.
- A schedule for staff work rooms will be created to allow for social distancing through a staggered scheduled of availability.
- Classroom desks will be arranged to be 6 feet apart.
- Outside hallways and walk areas will be marked 6 feet apart for classrooms to line up.
Identification and Contact Tracing:

The school will take the following actions in the event of a positive case of COVID-19. The school has designated staff persons to support contact tracing, such as creation and submission of lists of exposed students and staff to the local health department and notification of exposed persons. The Qualtrics Daily Symptom check provides initial information for contact tracing.

For staff, Qualtrics and Risk Management will follow contact tracing protocols established by the district. The principal will be the main contact on site to provide lists of those exposed to the staff member.

For students, our school nurse will provide lists of those exposed to the student.

Stockton Unified School District has established a secure tracking system for contact tracing that follows the guidance from health professionals to investigate cases and contacts of COVID-19. Contact tracing is a necessary component of reopening schools as we must maintain the safety of our staff, students, and community. The following process has been established:

SYMPTOMS OF COVID-19.

1. Students or staff will return home immediately.
2. Staff members will contact the supervisor and Risk Management.
3. Students and staff members will contact the primary care provider. It is generally recommended to get tested for COVID-19.
4. Contact tracing will determine potential exposure by following the SJDPH guidelines of close contact of exposure which is 15 minutes of duration within 6 feet of a positive individual.

COVID-19 Negative

• In the event a staff member has been possibly exposed to COVID-19 and has been quarantined at home and does not have COVID testing the following process will be followed:
  1. Staff member reports to Risk Management and observe 10–14-day quarantine pending COVID-19 testing.
  2. If the staff member tests negative for COVID-19, all personnel connected to this situation can return to work at the direction of Risk Management.

COVID-19 Positive

In the case a staff member or SUSD stakeholder has a positive COVID-19 test result, the following will occur:
1. Risk Management will contact the employee
2. Self-isolate at home for the prescribed days before return to work. Avoid infecting others-Stay Home
3. You may return to work/school when: You have been fever free for 24 hours, without fever reducing medication. Your COVID-19 symptoms have improved and at least 10 days have passed since your symptoms first appeared.

Staff Training and Family Education:

Staff will be trained and families will be educated on the application and enforcement of the plan.

Professional Development, Staff, and Leadership Meetings to allow input from ALL staff members in the development of this return to school plan.

Employees are also required to complete Keenan Safe Schools Online Trainings:

- Use the sanitizer and disinfectant
- Coronavirus: Cleaning and disinfecting your workplace
- Coronavirus Awareness
- Coronavirus: Managing Stress and Anxiety
- Teachers may choose to use the disinfectant to clean desks and other surfaces during the day.
- Suggested times and surfaces for cleaning include student desks after eating, high-touch areas within the classroom, and supplies used by students. Sanitizer and disinfectant is stored out of reach of students.

Videos are provided to ELAC/Parent Meetings, Back to School/Open House virtual trainings:

Site personnel are trained at faculty meetings. Staff are provided with specific details regarding the application and enforcement of the site plan. Families are educated through multiple communication sources including, but not limited to: the school website, emails, phone messages, and social media. Presentations will be shared at parent meetings such as Parent Coffee Hour and ELAC.

- Staff meeting – share PowerPoint presentation and check for understanding of the plan
- Staff starts sharing videos with students and families (COVID-19 Back-to-School Interactive Classroom Slide)
  - What is COVID-19?
  - How to wear your mask?
  - How germs spread?
  - Getting temperature taken at school
  - Hand-Washing
  - Social Distancing
  - Educational Videos
- Family Education – letters sent out, Parent Link phone calls to remind them about the procedures, district will be pushing out “healthy hygiene practices” to
Testing of Students and Staff:

Students and staff who have symptoms of COVID-19 or have been exposed to someone with COVID-19 have the availability to be rapidly tested. The SUSD Health Services department will provide instructions while waiting for test results.

- People who test positive are diagnosed with or suspected to have COVID-19 will not return to the building until they have met the criteria to discontinue home isolation according to CDC and local health guidelines. Those who have had close contact with a positive case (lab-confirmed, diagnosed, or suspected) will stay home and follow CDC and local health department guidance.
- Stockton Unified School District has established a secure tracking system for contact tracing that follows the guidance from health professionals to investigate cases and contacts of COVID-19. Contact tracing is a necessary component of reopening schools as we must maintain the safety of our staff, students, and community.
- If any staff or students have symptoms of COVID-19, our school nurse will refer them to their primary care physician and wait for further instructions.
- Site staff will be referred to the COVID reporting flow chart
- Parents and students will be advised based on recommendations from the CDE and district

Triggers for Switching to Distance Learning:

The superintendent will use specific criteria to determine when to physically close the school and prohibit in-person instruction.

The following criteria will be used by Stockton Unified School District to determine when in-person instruction will need to close:

- The district will consult with the San Joaquin County Public Health Department first.
- A classroom cohort goes home when there is a confirmed case.
- A school goes home when multiple cohorts have cases or more than 5% of school is positive.
- SUSD goes home if 25% of their schools are closed within a 14-day period.
- The site will consult with the Health Services and Risk Management Department.
- A classroom cohort goes home when there is a confirmed case with all families contacted via email, school messenger and direct phone calls as needed.
• A school goes home when multiple cohorts have cases or more than 5% of school is positive with all staff and families contacted via email, school messenger and direct phone calls as needed.
• SUSD goes home if 25% of their schools are closed within a 14-day period with all staff and families contacted via email, school messenger and direct phone calls as needed.

Communication Plans:

The superintendent will communicate with students, staff, and parents about cases and exposures at the school, consistent with privacy requirements such as FERPA and HIPAA.

Health Services and Risk Management will inform necessary personnel should it learn of a confirmed or likely coronavirus infection of District employees or students and identify the campus or worksite said infection was found understanding that this information be provided following HIPPA and FERPA rules. The District will ensure the administrators assigned to the campus or worksite at issue are fully informed of all interventions and changes to be implemented by the District in order to continue operations.

Protocols established by district and Risk Management.

Site will inform necessary personnel and families should it learn of a confirmed or likely coronavirus infection of District employees or students and identify the classroom where said infection was found, understanding that this information will be provided following HIPPA and FERPA rules. The site admin will ensure the personnel and families assigned to the campus or worksite at issue are fully informed of all interventions and changes to be implemented by the site in order to continue operations.
How to Safely Wear and Take off a Mask

Cover your Cough

Stop the spread of germs that can make you and others sick!
Dear Parents/Families,

We look forward to your child’s return to our school! Our teachers and staff are ready to welcome your students as we transition to in-person instruction. In preparation, we want to share general information about your expectations for students, staff, and families and how we can work together to keep schools safe. Please review this information with your child(ren) so that we can work together for a safe and smooth transition back to school for all of our students.

SUSD is committed to maintaining a safe and healthy environment for our students and staff. These are four things that we expect our students to do to help:

❖ **Wear Masks** - Masks or cloth face coverings are required for students and staff, both in school and on the bus. They should be worn properly, covering both the nose and mouth.

❖ **Wash Your Hands** - Practice Hand Hygiene - Students should wash their hands when given opportunities to do so during the school day or sanitize their hands with hand sanitizer.

❖ **Watch Your Distance** - Maintain Physical Distancing - Each school has a plan for the flow of traffic that includes directional signs and traffic patterns. While at school, students should follow these signs, and avoid stopping in hallways or congregating or meeting in groups.

❖ **Daily Symptom Self Check** - All students must complete the virtual daily symptom self-check before entering campus. **Stay Home When Sick** - It is important that students stay home from school if they have COVID-19 symptoms, have been exposed to someone with COVID-19, are awaiting results, or have tested positive. If a student becomes ill during the day, he or she will have cared for and isolated from other students. Parents will be contacted and will be need to come to the school to check out their student.

Please indicate below your understanding of these expectations. We appreciate your support and your family’s willingness to work with us to help control the spread of COVID-19 so that we can keep schools open for in-person instruction.

☐ I have read and reviewed the information above, the **SUSD Health & Safety** and **Hybrid & Distance Learning** guides with my child(ren).

☐ If my child has any of the following symptoms, he or she, will not attend school, and I will call my child’s school office to inform the school of the symptoms:

   Fever

   Headache
Chills                      New loss of taste or smell
Cough                      Sore throat
Shortness of breath or difficulty breathing Congestion or runny nose
Fatigue                    Nausea or vomiting
Muscle or body aches       Diarrhea

☐ If my child tests positive for COVID-19, is diagnosed with COVID-19, or has been advised by a physician or the health department to stay home due to symptoms of COVID-19, he or she will not attend school. I will call my child’s school office to inform them of the test result.

☐ If my child has been in close contact within the first 14 days with someone who has tested positive or been diagnosed with COVID-19, he or she will not attend school and I will contact my child’s school to share this information.

Again, thank you for your support of your child and our school during this time. Information about Stockton Unified School Districts’ transition to in-person instruction and the steps schools are taking to address health concerns is available on the district website. In addition, please contact our child’s teacher or school office if you have other questions.
**COVID-19 COMMUNICATION FLOWCHART**

**Employee**
- Employee tests positive for COVID and reports information to their Principal, Site Point Person and Risk Management.

**Principal**
- Submits incident report to Regional Director.

**Site Health Services Representative**
- Health Services will assess the issue, make recommendations, and consult Risk Management if needed.

**Risk Management**
- Risk Management will plan and manage individual employee communication. This may take several days depending on COVID results. Risk Management will communicate necessary information to Human Resources.

**Health Services**
- The Health Services Department and Risk Management will work together to report to Principal on employees sent home.
COVID-19 SCREENING AND RESPONSE GUIDE FOR SUSD SCHOOLS, STUDENTS AND STAFF

CONTACT
Was in close contact with a person with a confirmed case of COVID-19. Close contact is defined as closer than 6 feet for 15 minutes with or without a face covering.

POSITIVE CASE
Laboratory-confirmed, diagnosed, or suspected case of Covid-19. This timeline is based on the date symptoms started or, if no symptoms, the date the test was administered, not the date the result was received.

RETURN TO SCHOOL / WORK TIMELINE

<table>
<thead>
<tr>
<th>No Symptoms</th>
<th>At Least One Symptom</th>
</tr>
</thead>
<tbody>
<tr>
<td>Individual has stayed home and self-isolated for 14 days from the last day that he or she was exposed to the confirmed case of COVID-19.</td>
<td>At least one day (24 hours) has passed since recovery, which is defined as resolution of fever without the use of fever-reducing medications.</td>
</tr>
<tr>
<td>*Note: If this person is tested for COVID-19, a negative test would not change or decrease the 14 day quarantine period, but a positive test would move him or her into one of the Positive Case categories based on whether the individual continues to have no symptoms or has developed symptoms.</td>
<td>AND Improvement in other symptoms (for example: cough, shortness of breath) AND At least 10 days have passed since symptoms first appeared.</td>
</tr>
</tbody>
</table>

DISTRICT / SCHOOL RESPONSE
ENHANCED MITIGATION MEASURES
Isolate and deep clean affected classrooms and spaces in addition to current mitigation measures.

TARGETED CLOSURE
Close off affected areas (classrooms, offices, etc.) and, if possible, wait 24 hours before deep cleaning and disinfecting. (Consider temporary closure if evidence of transmission in consultation with DPH)
RETURN TO IN-PERSON LEARNING IN SUSD
IDENTIFICATION, CONTACT INVESTIGATION, AND NOTIFICATION PROCEDURES

HEALTH SELF CHECKS
Staff and students are required to self-monitor for symptoms such as fever, cough, and shortness of breath. Anyone not feeling well should not come to school or work.

IF STUDENTS OR STAFF ARE SICK:
STUDENTS: Parents should keep their children home and notify their child’s teacher and school.

STAFF: Staff members who are sick should notify their immediate supervisor and stay home.
If a staff member or student tests positive for COVID-19, or is diagnosed with COVID-19, or has been advised by a physician or the health department to stay home due to symptoms of COVID-19, they should not report to school or work. In addition, they should inform their school of their situation.

SHOULD THERE BE A REPORT OF COVID-19 SYMPTOMS AND / OR A POSITIVE TEST?

Each location will identify a health screening area room and a person experiencing symptoms at school or work will be sent to that area prior to being sent home.

The school’s trained Health Response Team will gather and log information, which will be used to help monitor data and conduct contact investigations.

That information will be reported to the Health Department as required.
Notifications will be made to families and staff while maintaining confidentiality consistent with applicable federal state privacy laws.

Areas in which the ill person had spent time in the school will be closed off immediately and for 24 hours. Areas will not be used until cleaning and disinfecting measures are performed, using CDC recommendations.

People who test positive are diagnosed with or suspected to have COVID-19 will not return to the building until they have met the criteria to discontinue home isolation according to CDC and local health guidelines. Those who have had close contact with positive cases (lab-confirmed, diagnosed, or suspected) will stay home and follow CDC and local health department guidance.
STAYING SAFE IN OUR SCHOOLS

Personal Protective Equipment
SUSD requires employees, students, and visitors at school facilities to wear masks or cloth face coverings.

Sanitizing High-Touch Surfaces
Custodians will clean and disinfect frequently touched surfaces and objects, including tables, doorknobs, light switches, counter tops, handles, desks, phones, toilets, sinks, and handrails.

Safe Distancing
Students and adults will maintain physical distance of 6 feet from each other, as feasible. Each school has a plan to help address this in hallways and during class changes, including directional signs and traffic patterns. While at school, students should follow these signs, and avoid stopping in hallways or congregating or meeting in groups.

Health Self Checks
Staff and students are encouraged to self-monitor for symptoms such as fever, cough, or shortness of breath.

Enhanced Personal Hygiene
Handwashing will continue to be encouraged and hand sanitizer dispensers will be available in all classrooms.

School Meals
Meals will be served using a grab-and-go system that allows students to take their meal to the classroom or other assigned eating area.

Transportation
All students, drivers, and monitors will wear a mask or cloth face covering while riding the bus to and from school. All riders will be assigned seats on the bus. In addition, buses will be disinfected after morning and afternoon routes, and the windows will be open for ventilation.

Intensified Cleaning Techniques
Custodians will follow established protocols for cleaning, sanitizing, and disinfecting of building surfaces, and high-touch objects.

New Building Signage
Our schools will communicate reminders about hygiene, safe distancing, masks, and other healthy behaviors.
WHAT TO DO IF A STUDENT BECOMES SICK AT SCHOOL OR REPORTS A NEW COVID-19 DIAGNOSIS

Student(s) displays signs of infectious illness consistent with COVID-19.

Teacher or staff excuses student(s) from classroom, cohort/pod or area within the school and notifies COVID-19 designated POC.

COVID-19 POC takes student(s) to designated isolation room/area until transportation can be arranged to send student(s) home or to seek emergency medical attention.

AND
Note: If multiple ill students must be placed in the same isolation room/area, ensure mask use and that they maintain at least 6 feet of distance between them.

COVID-19 POC notifies parent(s), guardian(s), or caregiver(s) of ill student(s).

Parent(s), guardians, or caregiver(s) pick up student(s). The student(s) should consult with their healthcare provider for evaluation and determination if testing is recommended.

Student(s) return to school following existing school illness management policies.

A student(s) is newly identified as having COVID-19.

COVID-19 POC initiates list of close contacts of the ill student and communicates the possible exposure to teacher(s), staff, and parent(s), guardian(s), or caregiver(s) of students(s) in the school.

Exposed area(s) (e.g., classroom) closed off for up to 24 hours. Cleaning and disinfection of area performed by appropriate staff.

Administrators work with local health officials to assess transmission levels and support contact tracing efforts.

Close contacts are notified, advised to stay home (quarantine for 14 days), and to consult with their healthcare provider for evaluation and determination if testing is recommended.

Administrators or COVID-19 POC communicate with teacher(s), staff, and parent(s), guardian(s), or caregiver(s) the importance of COVID-19 mitigation strategies (e.g., staying home when sick, washing hands, wearing masks, social distancing).

Members of the student(s) household are requested to quarantine for 14 days.

Student(s) returns to school after meeting criteria for ending home isolation.

Note: COVID-19 POC = the designated point of contact (a staff person that is responsible for responding to COVID-19 concerns, such as a nurse)

* Same day based on geographic area with community transmission of SARS-CoV-2 the virus that causes COVID-19.

** With no known close contact

*** Close contact is defined as someone who was within 6 feet for a total of 15 minutes or more within 2 days prior to illness onset.

**** Student can end home isolation after meeting all of the following three criteria: at least 10 days since symptoms appeared, at least 24 hours with no fever-reducing medication, and symptoms have improved.

COVID-19 Screening Flow Chart

Complaint of COVID-19 symptoms. Give surgical mask to wear (unless having difficulty breathing, if so call 9-1-1). Place student in an isolation area away from others. If staff person – send home immediately.

Questions
- When did symptoms begin?
- Close contact to someone with COVID-19?

Symptoms
- Fever ≥ 100.4F
- Sore throat
- New uncontrolled cough
- Difficulty breathing
- Diarrhea, vomiting, abdominal pain
- Severe headache
- Other COVID-19 symptoms

Are concerns/symptoms outside of normal range?

NO
- Allow to rest for 10 minutes
- Improving

YES
- Isolate
- Mask
- Send home ASAP

Call 9-1-1
- Trouble breathing
- Chest pain
- New confusion
- Unable to wake or stay awake
- Bluish lips or face

School Follow-up
- Notify Designated COVID-19 Compliance Officer & District Nurse
- Implement Exposure Management Plan
- Consult with LACDPH

Parent Follow-up
- Home Isolation
- Contact Health Care Provider
- Get tested for COVID-19
