Trustee Luntao informed everyone that DACA applications will be available for renewal until the end of next week which will extend a person's permit for the next two years. Trustee Smith thanked the Board of Education and District staff for moving this forward.*

*Ms. Maria Mendez, President – President Mendez thanked everyone for attending the Board meeting. President Mendez stated we should not put a price on the Units of Study or textbooks because we receive funding from State & Federal for these tools. The District should not worry about the cost of these tools as long as we provide them for our Teachers and students. She understands that SUSD is moving forward with new technology for the Units of Study and textbooks, however, many SUSD students may not have the resources to obtain internet access or electronic equipment at home. President Mendez feels that we need to continue to provide textbooks for our students in order for them to achieve academically with the homework. If our student achievement goes down the California Department of Education will not provide the funding we need to help our students. Without the proper funding the District may need to cut positions and it will be the Boards responsibility to monitor what positions to keep. She also stated if AB 1250 passes it may hurt the District financially so we need to be very mindful. President Mendez said we need to provide the best customer service training so that SUSD employees can be the best. In order for us to continue to keep our numbers for student enrollment we need to go above and beyond. The Ritz Carlton Customer Service Training is a useful tool for us to use. President Mendez was happy to see Board Members and Administrators in attendance. She stated the Board of Education's responsibility is to follow the five W's (Who, What, When, Where, Why) and SUSD staff are responsible for the "How" in order to resolve issues and matters within Stockton Unified School District.*
