OUTSTANDING TEACHERS ENTREVISTA POR SANDRA ARREOLA
Ars. Sylvia Sanchez, Grunsky Elementary

What do you like about teaching? In what school and grade are you currently teaching?

I am teaching 5th grade at Lottie Grunsky. What I enjoy most about teaching is seeing students' reactions when they understand a new concept. Seeing students progress from beginning of the year to the end is a wonderful feeling as a teacher. Teaching is a career that requires a lot of work but the outcome is priceless.

What is your goal with your students?

My goal that I have set with my students is to enjoy school. Having students learn from each other is key to success. The group collaborations and problem solving that I see in the classroom is incredible. Having my students understand that making mistakes is a part of the learning process.

What is your slogan?
"You are capable of amazing things"
"Positivity is key to success"

Let us tell us something more about yourself that you want to share.

3 Recognize their art/ Reconocer su arte
